

**Required Report:** Required - Public Distribution

**Date:** April 01, 2021

**Report Number:** HA2021-0004

**Report Name:** FAIRS Export Certificate Report Annual

**Country:** Haiti

**Post:** Port-au-Prince

**Report Category:** FAIRS Export Certificate Report

**Prepared By:** Fritzner Cleo

**Approved By:** Frederick Giles

**Report Highlights:**

This report describes the major export certificates required by the Government of Haiti for imports of food and agricultural products. The following sections of this report indicate the certificates required for each category of products, including their purpose, the requesting ministry, and their outlines.

## Section I: List of all Export Certificates Required by Haiti

Haiti has several documentation requirements for imported food and agricultural products. Requirements include those related to quality, quarantine, origin, and import control and can vary between products and product categories. However, it is highly recommended that U.S. exporters ensure that all necessary customs clearance requirements have been verified with local authorities and to work closely with Haitian importers to be informed of changes.

### Export Certification Requirement Examples

The following provides a sample of products and certification requirements. Please note that not all sample copies of attestations are available, as they differ for each product and are subject to change.

**Table A: List of All Export Certificates Required by the Government of Haiti for Sections I, II and III**

No.	Section I	Section II			Section III
	Product (s)	Title of Certificate	Purpose	Requesting Ministry	Attestation Required on Certificate

		certificate from ISO/IEC 17025) accredited laboratories	certificate	Agriculture, Natural Resources and Rural Development; and Ministry of Economy and Finance	Export country, Exporter name and address, Certificate number, Competent authorities for certification, Certification organization, Import country, Embarkment place, Transport type, Port of entry, Storage and transport conditions required, Quantity, Container number, Total number of packages, Detailed information of food product, Manufactured date, Minimum expiry date, Type of package, Net weight of each type of package, Food Nature related to CODEX Alimentarius, Usage, License agreement number center Product name as on the label, Lot identification number, Updated authorization of the center, Certify agent information, including name, position, signature date, and signature
--	--	---	-------------	---	---

**Section II: Purpose of Specific Export Certificate**

To import food and agricultural products into Haiti, the importer must supply a different set of documents depending upon the category of the product being imported. Those documents include certificate of origin, phytosanitary certificate, zoo sanitary certificate, certificate of weight and quality, insurance certificate, laboratory test certificate, inoculation certificate, certificate of freeze, and laboratory certificate. The purpose and the requesting ministry of each document are listed in Table A above by category, including all food

products, plant and plant products, bulk products, seeds, seedlings, ornamental plants, processed food, animal and animal products, fresh and frozen meat, eggs and egg products, veterinary products, fishery products, and dairy products.

**Section III: Specific Attestation Required on Export Certificate**

Each category of products requires specific attestation related to Haitian health and quarantine measures applied by the government of Haiti. Controlled agricultural products can be imported if the sanitary certificate testifies to the absence of pest, disease, and banned treatment processes related to the category of product. The specific attestation of each document is listed above by category. For additional information, review Post’s 2021 FAIRS narrative report.

**Section IV: Government Certificate Legal Entry Requirements**

The original certificate must accompany each shipment at the port of entry for all of the categories of products. All the certificates listed above are applied to one shipment. Sanitary certificates for plant/plant products and animal/animal products are valid for three months and are part of the documentation required to export those products to Haiti. A supplier’s or manufacturer’s export declaration or a U.S. state-issued export certificate are accepted as additional documents but cannot substitute official documents.

	<b>Product (s)</b>	<b>Title of Certificate</b>	<b>Does the original certificate need to accompany the product at the time of entry?</b>	<b>How long is the certificate valid? Can certificate be applied to multiple shipments?</b>	<b>Will the country accept a Supplier’s or Manufacturer’s Export Declaration as proof of compliance?</b>	<b>Will the foreign country accept a U.S. state-issued export certificate?</b>	<b>Will the country derogate export certificates? Which certificates? How do you apply?</b>
<b>1</b>	<b>All food products</b>	Certificate of origin	<b>Yes</b>	3 months, but are valid only once to facilitate one shipment entry	Yes, this is required in addition to other required certificates listed in Table A	Yes, this is required in addition to other required certificates listed in Table A	Yes, the country may derogate a certificate that does not comply with the requirements

							on a case by case basis
2	<b>Plant and Plant products, exempt plant products in cans</b>	Phytosanitary certificate	<b>Yes</b>	"	"	"	"
3	<b>Bulk products, including but not limited to rice, wheat flour and sugar</b>	Certificate of weight and quality & Insurance certificate	<b>Yes</b>	"	"	"	"
4	<b>Seedlings, seeds, fruits, vegetables, and ornamental plants</b>	Phytosanitary certificate	<b>Yes</b>	"	"	"	"
5	<b>Processed foods</b>	Laboratory test Certificate	<b>Yes</b>	"	"	"	"
6	<b>Animal products</b>	Zoosanitary certificate	<b>Yes</b>	"	"	"	"
7	<b>Live animals. exempt dogs and cats as domestic animals</b>	Zoosanitary certificate	<b>Yes</b>	"	"	"	"
8	<b>Pets: dogs and cats &amp; Cock for fight</b>	Zoosanitary certificate and inoculation certificate	<b>Yes</b>	"	"	"	"
9	<b>Fresh and</b>	Zoosanitary	<b>Yes</b>	"	"	"	"

	<b>frozen meat</b>	certificate & Certificate of freeze					
<b>10</b>	<b>Eggs and eggs products, poultry, chicks</b>	Zoosanitary certificate	<b>Yes</b>	"	"	"	"
<b>11</b>	<b>Veterinary medicine</b>	Laboratory certificate	<b>Yes</b>	"	"	"	"
<b>12</b>	<b>Fishery Products for reproduction</b>	Zoosanitary certificate	<b>Yes</b>	"	"	"	"
<b>13</b>	<b>Dairy Products</b>	Sanitary certificate	<b>Yes</b>	"	"	"	"

**Section V: Other Certification/Accreditation Requirements**

Apart from Export Certificates, products being exported into Haiti must also meet other requirements, which are covered in Post’s 2021 FAIRS narrative report.

## Appendix I

### Example: Samples of import permit delivered by Haitian government with details required from export certificates

Animal and animal products require a zoosanitary certificate signed by certified veterinarian.

A laboratory certificate should be signed by a certified laboratory.
