The General Administration of Customs of the People's Republic of China (GACC) Department of Animal and Plant Quarantine (DAPQ) published updated lists of exporters eligible to ship U.S. feed and feed additive products on September 20, 2023. The update included 6 feed additives products, 1 single cell product, 2 mixed feed ingredient products, and 16 compound feed products.

U.S. producers of feed and feed additives products must register with GACC before shipping products to China to avoid potential issues upon import. After successful registration, updated feed facility and product lists are published on the GACC website (<http://dzs.customs.gov.cn/>).

Exporters can check the below links for the feed facility and product lists as of September 2023:

- [Single Cell Protein List](#)
- [Mixed Feed Ingredients List](#)
- [Compound Feed List](#)

U.S. facilities and exporters should work closely with their importers in China to ensure their firms and products are listed on [GACC website](#) before shipment of any feed and feed additive products.

U.S. facilities and exporters seeking to register for the first time or those that need to update information can contact AgBeijing@usda.gov for additional guidance and instructions.
