Food and Agricultural Import Regulations and Standards - Certification

FAIRS Export Certificate Report

Approved By:

Christine Sloop

Prepared By:

Tatjana Maslac

Report Highlights:

This report provides guidance on the certificate requirements for agricultural and food products imported into the Serbian market and includes the certificates that are standardized between the Serbian Ministry of Agriculture and the relevant US authorities (USDA/APHIS, USDA/FSIS, USDA/AMS, and FDA). In 2013, USDA/AMS and the Serbian Ministry of Agriculture completed the harmonization of the Health Certificate for Export of Class B Shell Eggs to Serbia. APHIS and the Serbian Ministry of Agriculture continue to work on finalizing a Veterinary Health Certificate for Treated Hides and Skins, a Veterinary Health Certificate for Canned Pet Food and other Processed Pet Food, a Veterinary Certificate for Feed Containing and not Containing Feedstuffs of Animal Origin and a Veterinary

Health Certificate for Horses (registered equidae for breeding and production).

Section I. List of All Export Certificates Required By Government (Matrix) :

Sections that have been updated include: Sections I, II and Appendix I.

AUTHOR DISCLAIMER:

This report was prepared by the Office of Agricultural Affairs of the USDA/Foreign Agricultural Service in Belgrade, Serbia for U.S. exporters of food and agricultural products. While every possible care was taken in the preparation of this report, information provided may not be completely accurate either because policies have changed since its preparation, or because clear and consistent information about these policies was not available. It is highly recommended that U.S. exporters verify the full set of import requirements with their foreign customers, who are normally best equipped to research such matters with local authorities, before any goods are shipped. FINAL IMPORT APPROVAL OF ANY PRODUCT IS SUBJECT TO THE IMPORTING COUNTRY'S RULES AND REGULATIONS AS INTERPRETED BY BORDER OFFICIALS AT THE TIME OF PRODUCT ENTRY

No.	Product(s)	Title of Certificate	Attestation Required on Certificate	Purpose	Requesting Ministry
1	For fishery products	Health Certificate for fish products from the United States intended for the Republic of Serbia	Harmonized with US requirements see Section II, #1	Animal and public health	Ministry of Agriculture
2	Breeding swine	Health Certificate for exportation of breeding swine to the Republic of Serbia	Harmonized with US requirements see Section II, #2	Animal health	Ministry of Agriculture
3	Fresh meat of domestic swine intended for human consumption	Veterinary Health Certificate for export of fresh meat of domestic swine intended for human consumption in the Republic of Serbia	Not yet standardized with international or EU requirements relating to trichinae. 28	Seed Materials	OECD Varietal Certification of Seed for International Trade	Can be obtained from the OECD	Plant protection	Ministry of Agriculture
29	Food products	Certificate of Radiation (for food from certain geographic areas)	Not standardized, but preferably from an independent institution in the country of export.	Food Safety	Ministry of Health and Ministry of Agriculture

Section II. Purpose of Specific Export Certificate(s)

1. Health certificate for fish products from the United States and intended for export to the Republic of Serbia.

Certificate Purpose: This certificate is for animal health purposes and must accompany the consignment until it reaches the place of destination. It is for identification of the consignment, origin of the product, destination of the product and health attestation.

The certificate is required by the Ministry of Agriculture, Forestry and Water Management- Veterinary Directorate.

This certificate was harmonized with the related U.S. regulations in 2008.

For a sample of the required certificate please go to web page:

www.seafood.nmfs.noaa.gov/Certificates/Serbia.pdf

2. Health certificate for exportation of breeding swine to the Republic of Serbia

Certificate Purpose: This certificate is for animal health purposes and must accompany the consignment until it reaches the place of destination. It is for animal identification (Reg. no. of herd, earmark or tattoo, breed, sex, date of birth), destination of the animals and health information of the animals.

The certificate is required by the Ministry of Agriculture, Forestry and Water Management- Veterinary Directorate.

This certificate was harmonized with the related U.S. regulation in 2009.

For a sample of the required certificate please go to web page:

http://www.aphis.usda.gov/regulations/vs/iregs/animals/animal_serbia.shtml

3. Veterinary certificate for export of fresh and frozen meat of swine intended for human consumption in the Republic of Serbia

Certificate Purpose: This certificate is for animal and public health purposes and must accompany the consignment until it reaches its destination. It is for identification of the consignor, consignee, origin of the meat, intended destination of the meat, establishment address, registration (approval) number, means of transport and consignment identification, consignment identification detail, identification of the meat, individual identification of the meat included in this consignment and animal health attestation.

The certificate is required by the Ministry of Agriculture, Forestry and Water Management-Veterinary Directorate.

Serbia currently is not accepting the U.S. veterinary certificate for export of fresh or frozen meat of swine due to the fact that it does not recognize the U.S. or international methods of treating trichinae by freezing meat. Serbia requires trichinae testing of all imported U.S. fresh or frozen meat of swine. The USDA's Food Safety Inspection Service is currently discussing the international standards and Serbian testing requirements with the Serbian Veterinary Directorate.

4. Veterinary certificate for canned pet food, intended for export to the Republic of Serbia

Certificate Purpose: This certificate is for animal health purposes and must accompany the consignment until it reaches its destination. It is for identification of the consignor, consignee, origin of fat derivatives, destination of products, place of loading for exportation, means of transport and consignment identification, identification of pet food and health attestation.

This certificate is required by the Ministry of Agriculture, Forestry and Water Management- Veterinary Directorate.

Serbia is requiring the same as a Health Certificate for canned pet food destined for or transiting through the European Union. This certificate is still not endorsable by APHIS, although discussions are on-going, even EU accepted that US status of BSE changed to negligible risk.

5. Veterinary certificate for processed pet food other than canned pet food, intended for export to the Republic of Serbia

Certificate Purpose: This certificate is for animal health purposes and must accompany the consignment until it reaches its destination. It is for identification of the consignor, consignee, destination of products, place of loading for exportation, means of transport and consignment identification, identification of pet food and health attestation.

This certificate is required by the Ministry of Agriculture, Forestry and Water Management- Veterinary Directorate.

Serbia is requiring the same as the Health Certificate for processed pet food other than canned pet food destined for or for transit through the European Union. This certificate is still not endorsable by APHIS, although discussions are on-going, even EU accepted that US status of BSE changed to negligible risk.

6. Veterinary health certificate for feed containing feedstuffs of animal origin intended for export to the Republic of Serbia

Certificate Purpose: This certificate is for animal health purposes and must accompany the consignment until it reaches its destination. It is for identification of the consignor, consignee, origin of the feed with feedstuffs of animal origin, destination of feedstuffs of animal origin, identification of feed including the animal species that the feedstuff originates, name, address and veterinary approval number of the approved or registered production establishment, list of ruminant farmed animals intended to be fed with this feed, processing methods of animal by-products, place of loading for exportation, means of transport and consignment identification and health attestation.

This certificate is required by the Ministry of Agriculture, Forestry and Water Management- Veterinary Directorate.

Serbia is requiring the same as the Health Certificate for feed containing feedstuffs of animal origin destined for or for transit through the European Union, even EU accepted that US status of BSE changed to negligible risk.

7. Veterinary health certificate for feed and feed additives not containing feedstuffs of animal origin intended for export to the Republic of Serbia

Certificate Purpose: This certificate is for animal health purposes and must accompany the consignment until it reaches its destination. It is for identification of the consignor, consignee, origin of the feed and feed additives not containing feedstuffs of animal origin, destination of feed and feed additives without feedstuffs of animal origin, name, address and veterinary approval number of the approved or registered production establishment, packaging materials, rules of properly marking packaging materials, place of loading for exportation, means of transport and consignment identification and health attestation.

This certificate is required by the Ministry of Agriculture, Forestry and Water Management- Veterinary Directorate.

Serbia is requiring the same as the Health Certificate for feed and feed additives not containing feedstuffs of animal origin destined for or for transit through the European Union, even EU accepted that US status of BSE changed to negligible risk.

8. Sanitary certificate for export of dairy products

This certificate has been harmonized with the related US regulations since 2008. It covers heat-treated milk; milk-based products made from heat-treated milk or heat-treated milk-based products for human consumption for export to the Republic of Serbia.

Certificate Purpose: This certificate is for animal and public health purposes and must accompany the consignment until it reaches its destination. It is for identification of the consignor, consignee, and identification of the dairy product, product description as well as a sanitary attestation.

This certificate is required by the Ministry of Agriculture, Forestry and Water Management-Veterinary Directorate.

For a sample of the required certificate please go to web page:

http://www.aphis.usda.gov/regulations/vs/iregs/products/product_serbia.shtml

9. Animal health certificate for import of breeding cattle to the Republic of Serbia

Certificate Purpose: This certificate is for animal health purposes and must accompany the consignment until it reaches its destination. It is for identification of the exporting country, competent ministry, issuing authority, country of destination, animal species, animal identification and description, consignor, consignee, registration number (approval), means of transport and consignment identification and animal health information.

This certificate was harmonized with the related U.S. regulation in July 2011.

The certificate is required by the Ministry of Agriculture, Forestry and Water Management- Veterinary Directorate.

For a sample of the required certificate please go to web page:

http://www.aphis.usda.gov/regulations/vs/iregs/animals/animal_serbia.shtml

10. Health certificate for the exportation of bovine semen from the United States of America to the Republic of Serbia

Certificate Purpose: This certificate is for animal health purposes and must accompany the consignment

until it reaches its destination. It is for identification of the semen, country of collection, origin of semen, destination of semen, identification of the donor animals and health attestations.

This certificate is harmonized with the related U.S. regulation in November 2009.

The certificate is required by the Ministry of Agriculture, Forestry and Water Management, Veterinary Directorate.

For a sample of the required certificate please go to web page:

http://www.aphis.usda.gov/regulations/vs/iregs/animals/animal_serbia.shtml

11. Health certificate for the exportation of bovine embryos from the United States of America to the Republic of Serbia

Certificate Purpose: This certificate is for animal health purposes and must accompany the consignment until it reaches its destination. It is for identification of the embryos, country of collection, origin of embryos, destination of embryos, identification of the donor animals and health attestations.

This certificate was harmonized with the related U.S. regulation in October 2009.

The certificate is required by the Ministry of Agriculture, Forestry and Water Management- Veterinary Directorate.

For a sample of the required certificate please go to web page:

http://www.aphis.usda.gov/regulations/vs/iregs/animals/animal_serbia.shtml

12. Health certificate for importation of Class B shell eggs to Republic of Serbia

Certificate Purpose: This certificate is for animal and public health purposes and must accompany the consignment until it reaches its destination. It is for identification of the consignor, consignee, and country of origin, country and place of destination, identification of the commodities, means of transport, health identification and health attestation.

The certificate is required by the Ministry of Agriculture, Forestry and Water Management-Veterinary Directorate.

This health certificate was harmonized in 2013. The Serbian Veterinary Service will accept the EU model Export Health Certification for destination or for transit issued by USDA's Agriculture Marketing Service (AMS).

For more info on the required certificate please go to web page:

<http://www.ams.usda.gov/AMSV1.0/PYEggExport>

For a list of the plants eligible to export to Serbia please go to web page:
<http://www.ams.usda.gov/AMSV1.0/getfile?dDocName=stelprdc5098398>

13. Health certificate for imports into the Republic of Serbia of registered equidae from the United States of America and Canada for breeding and production

Certificate Purpose: This certificate is for animal health purposes and must accompany the consignment until it reaches its destination. It is for identification of the animal, origin and destination of the animal and health attestations.

The certificate is required by the Ministry of Agriculture, Forestry and Water Management- Veterinary Directorate.

This certificate is currently in the process of being harmonization with the related U.S. legislation.

14. Health certificate for meat products intended for import to Republic of Serbia

Certificate Purpose: This certificate is for animal and public health purposes and must accompany the consignment until it reaches its destination. It is for identification of the country of origin, country and place of destination, identification and description of meat products, origin of meat products, destination of meat products and health attestations.

The certificate is required by the Ministry of Agriculture, Forestry and Water Management- Veterinary Directorate

For the US health certificate for meat products see:
<http://www.fsis.usda.gov/wps/portal/fsis/topics/international-affairs/exporting-products/export-checklist>

15. Veterinary health certificate FSIS Form No. 9060-5 for exports of poultry meat and poultry meat products

Certificate Purpose: This certificate is for animal and public health purposes and must accompany the consignment of poultry meat and poultry meat products until it reaches its destination. It is for identification of poultry meat and poultry meat products exporter, importer, country of origin, product identification, packaging and labeling and health attestations.

This certificate was harmonized with the related U.S. regulation in 2005.
<http://www.fsis.usda.gov/wps/portal/fsis/topics/international-affairs/exporting-products/export-checklist>

The certificate is required by the Ministry of Agriculture, Forestry and Water Management- Veterinary Directorate

16. Certificate of wholesomeness and FSIS Form 9235-1 for exports of poultry meat and poultry products

Certificate Purpose: This certificate is for animal and public health purposes and must accompany the consignment of poultry meat and poultry products until it reaches the place of destination.

This certificate was harmonized with the related U.S. regulation in 2005.

<http://www.fsis.usda.gov/wps/portal/fsis/topics/international-affairs/exporting-products/export-library-requirements-by-country/Serbia>

The certificate is required by the Ministry of Agriculture, Forestry and Water Management- Veterinary Directorate.

17. Bilingual Certificate for Wholesomeness

Certificate Purpose: This certificate is for public health purposes and must accompany the consignment until it reaches its destination.

The certificate is required by the Ministry of Agriculture, Forestry and Water Management- Veterinary Directorate

Both, FSIS Forms 9060-5 and 9235-1, must be signed by an FSIS veterinarian (with name and the function printed after the signature). Importers must obtain an import permit as well.

Import procedures for U.S. poultry meat and poultry meat products destined for the Republic of Serbia can be found in Appendix 1 of this report. A Certificate of Wholesomeness and bilingual Certificate for Wholesomeness can be obtained from USDA's Food Safety Inspection Service (FSIS).

See: <http://www.fsis.usda.gov/wps/portal/fsis/topics/international-affairs/exporting-products/export-library-requirements-by-country/Serbia>

18. Health certificate for treated hides and skins intended for export to the Republic of Serbia

Certificate Purpose: This certificate is for animal health purposes and must accompany the consignment until it reaches its destination. It is for identification of the destination, country of origin, origin of hides and skins, and health attestations.

The certificate is required by the Ministry of Agriculture, Forestry and Water Management- Veterinary Directorate.

Serbia is requiring the same as a Health Certificate for treated hides and skins destined for transit

through the European Union. This certificate is still not endorsable by APHIS, but is in the process of being harmonized.

19. Health certificate for aquaculture animals for farming, relaying, put and take fisheries and open ornamental facilities from the United States and intended for export to the Republic of Serbia

Certificate Purpose: This certificate is for animal health purposes and must accompany the consignment until it reaches the place of destination. It is for identification of the consignment, origin of the product, general requirements, specific requirements for those species, transport and labeling requirements, destination of the product and health attestation.

The certificate is required by the Ministry of Agriculture, Forestry and Water Management- Veterinary Directorate.

Serbia is requiring the same as a Health Certificate for aquaculture animals for farming, relaying, put and take fisheries and open ornamental facilities destined for or transiting through the European Union. This certificate is still not endorsable by APHIS, although discussions are on-going.

20. Phytosanitary Certificate (for plants, plant products and seed materials)

Certificate Purpose: To certify that the plant product or other regulated articles described herein has been inspected and/or tested according to appropriate official procedures and are considered to be free of quarantine pests specified by the importing contracting party, and to confirm the phytosanitary requirements of the importing contracting party are being met, including those for regulated non-quarantine pests. The certificate also serves to identify treatments and describe the consignment.

The certificate is required by the Ministry of Agriculture, Forestry and Water Management-Plant Protection Directorate.

Phytosanitary Certificate, PPQ Form 577, is sometimes referred to as a FPC (Federal Phytosanitary Certificate) by certifying officials in the United States.

See: http://www.aphis.usda.gov/import_export/plants/plant_exports/downloads/ppq577.pdf

21. Phytosanitary Certificate for Re-export (for plants, plant products and seed materials)

Certificate Purpose: Phytosanitary Certificate for Re-export, PPQ Form 579 (also referred to as FPC-R), certifies that based on an original foreign phytosanitary certificate and/or an additional inspection, the plants or plant products that officially entered the United States are considered to conform to the current phytosanitary regulations of the importing country, and have not been subjected to the risk of infestation or infection during storage in the United States.

The certificate is required by the Ministry of Agriculture, Forestry and Water Management-Plant Protection Directorate.

Phytosanitary Certificate, PPQ Form 579, is sometimes referred to as a FPC-R (Federal Phytosanitary Certificate Re-Export).

See: http://www.aphis.usda.gov/import_export/plants/plant_exports

22. Quality Certificate for plants and plant products

Certificate Purpose: To certify that the plant and/or plant product has been inspected and/or tested according to the appropriate official procedures and are considered to be in compliance with the standards of the importing contracting party.

The certificate is required by the Ministry of Agriculture, Forestry and Water Management-Plant Protection Directorate <http://www.uzb.minpolj.gov.rs/index.php?lang=en>

23. Certificate of Organic Products

Certificate Purpose: To attest that the imported products comply with the rules on organic production methods, as set out by the controlled body mentioned in the same document.

Currently foreign certificates for Organic Products must be re-certified and issued by one of the six recognized institutions listed below. Final authorization of these institutions is given each year by the Serbian Ministry of Agriculture (according to the "Official Gazette" RS 89/13).

The certificate is required by the Ministry of Agriculture, Forestry and Water Management, Plant Protection Directorate <http://www.uzb.minpolj.gov.rs/index.php?lang=en> .

A list of US organic certifying agents under the National Organics Program can be obtained from the following website: <http://www.ams.usda.gov>

24. Health Certificate (for food products and alcoholic beverages)

Certificate Purpose: To certify that the food product has been inspected and/or tested according to the relevant official procedures and are in accordance with the country of export's legislation. It contains the declaration of the official authority stating that the product is fit for human consumption, or for production of food intended for human consumption.

The certificate is required by the Ministry of Agriculture, Forestry and Water Management and the Ministry of Health.

A certificate of Free Sale from the Food and Drug Administration can be obtained from the following website: <http://www.fda.gov/Food/NewsEvents/ConstituentUpdates/ucm307264.htm>

25. Certificate of Origin (for food products and alcoholic beverages)

Certificate Purpose: To certify the origin of the food product exported to the Republic of Serbian market.

The certificate is required by the Ministry of Agriculture, Forestry and Water Management and the Ministry of Health.

A certificate of origin can be obtained from most US chambers of commerce

26. Certificate of Quality (for food products and alcoholic beverages)

Certificate Purpose: To certify that the food product has been inspected and/or tested according to the relevant official procedures and are considered to be in compliance with the standards of the importing contracting party. The certificate content is specific to the actual product but usually contains analyzed parameters, physical and chemical characteristics, heavy metals analysis, microbiological statement, ingredient list and nutritional value.

<http://www.fda.gov/Food/NewsEvents/ConstituentUpdates/ucm307264.htm>

The certificate is required by the Ministry of Agriculture, Forestry and Water Management and the Ministry of Health.

27. International Seed Testing Association (ISTA) Certificate (Seed materials)

Certificate Purpose: To certify seed quality. It contains the following information: stamp of the testing and issuing laboratory, name of applicant, species, cultivars, category, marks and weight of lot, analysis results, status of certificate, number of containers, etc.

The certificate is required by the Ministry of Agriculture, Forestry and Water Management

To review this certificate please, see the following web page:

<http://www.seedtest.org/en/home.html>

28. Organization for Economic Co-operation and Development (OECD) varietal certification of seed for international trade (Seed materials)

Certificate Purpose: To certify the variety and origin of the seed material.

The certificate is required by the Ministry of Agriculture, Forestry and Water Management

http://www.mpt.gov.rs/poljoprivreda.html?menu_id=9 and

<http://www.uzb.minpolj.gov.rs/index.php?lang=en>

29. Certification on Radiation (for Food Products)

Certificate Purpose: Certifies the level of radiation in the imported food product. The Inspector may ask for this certificate, especially if the goods are coming from an area or country where higher levels of

radiation have been registered or suspected.

The certificate is required by the Ministry of Agriculture, Forestry and Water Management and the Ministry of Health. For US products this certificate can be obtained from FAS/OASA /PPTRD (processed products division). <http://www.fas.usda.gov/oasa.asp>

Section III. Specific Attestations Required on Export Certificate(s)

All certificates, the ones that are standardized and the ones that are not standardized are listed in Section I. Certificates that are not standardized by the Serbian Government must be issued by an independent and accredited institution in the exporting country. In addition, the Serbian Ministry of Agriculture will authorize accredited institutions in Serbia that deal with organic product certification to re-issue certificates for all imported organic products based on the certificates and import documents from the country of origin.

Section IV. Government Certificate's Legal Entry Requirements

Government Certificate's Legal Entry Requirements

All certificates listed in this report must accompany a product at the time of entry and must be original. They are applied to single shipments only.

Serbia does not accept the supplier or manufacturer export declaration as a proof of compliance with Serbian regulations and standards. Furthermore, inspectors have the right to ask for additional information from the producer or other related certification from the competent authorities in the exporting country. For the non-standardized certificates listed in Section I, Serbia will accept a State-issued export certificates from the United States, if these certificates are in accordance with Serbian legislation.

Section V. Other Certification/Accreditation Requirements

Other Certification/Accreditation Requirements

For food imports, international certificates on the health safety of the consignment are recognized based on bilateral and multilateral conventions as issued by the competent authority of the exporting country. If the conventions are non-existent, recognition of the international certificates and other documents will be carried out.

Beside the specific and aforementioned certificate(s), all imported goods must be accompanied by commercial invoices and transportation documents at the time of entry into the Republic of Serbia.

Appendix I. Electronic Copy or Outline of Each Export Certificate

Electronic copies of Export Certificates can be founded on web links in the report. For other certificates that are not available on-line, or for more details, please contact:
