Food and Agricultural Import Regulations and Standards - Certification

FAIRS Export Certificate Report

Approved By:

M. Kathryn Ting, Minister-Counselor

Prepared By:

Seung-Ah Chung / Michael G. Francom

Report Highlights:

Korea's Animal, Plant and Fisheries Quarantine Inspection Agency (QIA) was created in 2011 by merging the three agencies responsible for animal and livestock products, plants, and fisheries respectively. The report has been updated to reflect this change. No other substantive changes were made.

Section I. List of All Export Certificates Required By Government (Matrix) :

This report provides export certificates for various agricultural products required by the Korean government for import inspection. U.S. exporters are strongly encouraged to consult with Korean importers and the relevant U.S. authorities about the eligibility of products and specific requirements imposed by the Korean government.

Product(s)	Title of Certificate	Attestation Required on Certificate	Purpose	Requesting Ministry*
Beef and beef products	FSIS Form 9060-5 and 9305-7 (issued by USDA/FSIS)	Multiple statements on 9305-7. See Appendix.	Health certificate	QIA/ MIFAFF
Pork	FSIS Form 9060-5 and 9305-5 (issued by USDA/FSIS)	Multiple statements on 9305-5. See Appendix.	Health certificate	QIA/ MIFAFF
Poultry	FSIS Form 9060-5 and 9305-2A (issued by USDA/FSIS)	Multiple statements on 9305-2A. See Appendix.	Health certificate	QIA/ MIFAFF
Egg products	PY-200 (issued by USDA/FSIS)	Attestation to detailed pasteurization treatment: 55° C for a minimum of 15 min; or, 60° C for a minimum of 5 minutes; or, 64° C for a minimum of 4.5 minute.	Health certificate	QIA/ MIFAFF
Dairy products	Export Certificate (issued by exporting government) or manufacturer self-declaration	<p>“Products have been pasteurized for 15 seconds at 72C or longer” or</p> <p>“Products have been UHT/HTST/LTST treated”</p> <p>“Products have been treated for at least 15 seconds at 57-68C and then matured (limited to cheese)” or</p> <p>“Products have been fermented using lactic acid bacteria”</p>	Export certificate	QIA/ MIFAFF
Pork casing	FSIS Form 9060-7 and 9305-5 (issued by USDA/FSIS)	Only pork casings from animals slaughtered and processed in the United States are eligible for export to Korea.	Health certificate	QIA/ MIFAFF
Protein-free tallow	FSIS Form 9060-5 (issued by USDA/FSIS)	“Certified materials have been tested, and found to have a level of insoluble	Health certificate	QIA/ MIFAFF

		impurities of 0.15% or less.”		
Live animal	Health Certificate (issued by USDA/APHIS)	Attestation required on certificate varies depending on species. See Appendix.	Health certificate	QIA/ MIFAFF
Fresh vegetable, grains, fruits, nuts	PPQ Form 577 (issued by USDA/APHIS)	Attestation required on certificate varies depending on products. See Appendix.	Phytosanitary certificate	QIA/ MIFAFF
Frozen vegetables and fruits	Form FV-146CS (issued by USDA/AMS) or PPQ Form 578 (issued by USDA/APHIS)	“Products have been frozen at -17.8C or below.”	Certificate of Quality & Condition or Export Certificate	QIA/ MIFAFF
Processed organic products except livestock products and feed	Organic certificate (issued by USDA/AMS Domestic Accredited Certifying Agents)**	No attestation required but certificate must include: (a) Name, address, and phone number of the certifying agent (b) A list of the types of organic food the operation is certified by the certifying agent to produce or process (c) The company name, address, and effective date (or renewal date) of the certification	Certificate to confirm eligibility of organic producer or manufacturer	KFDA
Rice	Non GMO Certificate (issued by OMIC USA & laboratory participating in USDA/GIPSA’s Proficiency Program)	Attestation confirming the absence of GM rice	Test certificate to prove no presence of GM rice	MIFAFF
Non-GMO bulk shipment	Full IP Documentation (issued by private entities) or Non-GMO Certificate (issued by exporting government)	Attestation to identity preserved (IP) handling of bulk grains	Certificate to prove IP handling of bulk grains from seed to final export	MIFAFF
Non-GMO processed products ***	Full IP Documentation issued by private entities; Non-GMO Certificate issued by exporting government; or Notarized Self Declaration issued by manufacturer – See Appendix for example.	Attestation to identity preserved (IP) handling of raw materials from seed purchasing to manufacturing	Certificate or statement to provide IP handling of raw materials used in processed products	KFDA

*MIFAFF: Ministry for Food, Agriculture, Forestry, and Fisheries

*QIA: Animal, Plant and Fisheries Quarantine Inspection Service

- *KFDA: Korea Food & Drug Administration
- *USDA: U.S. Department of Agriculture
- *AMS: Agricultural Marketing Service
- *FSIS: Food Safety Inspection Service
- *GIPSA: Grain, Inspection, Packers, and Stockyards Administration
- *APHIS: Animal Plant Health Inspection Service
- *PPQ: Plant Protection & Quarantine
- *VS: Veterinary Service

** KFDA's certification system for processed organic products will remain in place until the end of 2012 and will be replaced by a MIFAFF certification system. Post will provide any updates on this matter once it becomes available.

*** KFDA may change documentation requirements for non-GMO processed products according to the pending revision of the current biotech labeling standards for processed products. Post will provide any updates on this matter once it becomes available.

Section II. Purpose of Specific Export Certificate(s)

The purpose of individual certificates is included in the table in Section I.

Section III. Specific Attestations Required on Export Certificate(s)

Certain livestock products, grains and fruit require specific, pre-printed attestations in the corresponding certificates. Links to these certificates are included in the Appendix.

Given their complexity, the documentation requirements to ship beef to Korea are reviewed here. Korea requires that beef imports come from plants approved under the Export Verification (EV) Program set up by USDA's Agricultural Marketing Service (AMS). Beef must be slaughtered and/or processed at plants identified in the [Official Listing of Bovine Eligible Suppliers](#) (aka, USDA Bovine EV Programs).

Beef that was slaughtered and processed under an approved EV program can be exported after being stored in a warehouse approved by USDA's Food Safety Inspection Service. A list of all of the establishments can be found in the FSIS [Meat, Poultry and Egg Products Inspection Directory](#).

In addition, Korean beef importers and U.S. exporters have reached a commercial understanding that, as a transitional measure, only U.S. beef from cattle less than 30-months of age will be shipped to Korea. AMS set up a voluntary Quality System Assessment (QSA) Program to verify that beef from participating plants will be from cattle less than 30 months of age.

Exporting establishments may choose to participate in the AMS QSA program that verifies that the beef being certified is from cattle less than 30 months of age. However, for establishments that do participate in the AMS QSA program, the following statement may appear in Remarks on the FSIS 9060-5: "The beef or beef products were produced at a verified establishment under the USDA Less than 30 Month Age Verification USDA Quality System Assessment (QSA) Program for Korea." At this time, Korea will not accept at port-of-entry shipments of beef without the QSA program statement in the

Remarks section of the FSIS 9060-5 as described in the Documentation section, and Korean quarantine officials will return shipments without the statement to the owner/agent of the product. A list of [QSA approved establishments](#) and their approval dates is maintained by AMS.

Section IV. Government Certificate's Legal Entry Requirements

With a couple of exceptions, the original certificate is required for all products listed above in Section I at the time of entry. The original certificate for IP grain and organic shipments is only required for the first shipment. Subsequent shipments can be accompanied by copies of the original.

In cases where a government issued certificate is required, any government entity (including city/municipal, state, or federal) can issue certificates unless specified otherwise. Health certificates must be issued by federal quarantine authorities.

Section V. Other Certification/Accreditation Requirements

The "issuance date" of both health and phytosanitary certificates shall be prior to the "on-board date" listed on the Bill of Lading. The "inspection date" on a certificate must be prior to the departure date. To prevent unnecessary delay at the port of entry, the certificate "issuance date" should be prior to the departure date of shipments.

Appendix: Electronic Copy or Outline of Each Export Certificate

1. FSIS certificates

Please refer to the below website for details including certificate samples.

http://www.fsis.usda.gov/regulations_&_policies/Republic_of_Korea_Requirements/index.asp

http://www.fsis.usda.gov/regulations_&_policies/Korea_Egg_Products_Requirements/index.asp

2. APHIS Certificates

A. Plant Certificate

Please refer to the below website for details about plant certificate requirements.

http://www.aphis.usda.gov/import_export/plants/plant_exports/export_certificates_forms.shtml

PPQ Form 577 can be viewed at the below website:

http://www.aphis.usda.gov/import_export/plants/plant_exports/downloads/ppq577.pdf

B. Animal Certificates

Please refer to the below website for details about animal certificate requirements.

http://www.aphis.usda.gov/import_export/animals/animal_exports.shtml

Korean requirements of live animal exports can be found at:

http://www.aphis.usda.gov/regulations/vs/iregs/animals/animal_korea.shtml

C. Dairy Certificate

Please refer to the below website for details about certificate requirements for dairy products.

http://www.aphis.usda.gov/regulations/vs/iregs/products/downloads/ks_dp.pdf

D. Other Certificates Issued by APHIS

Please refer to the below website for details about certificate requirements for other products that are covered by APHIS.
