Report Name: Food and Agricultural Import Regulations and Standards Export Certificate Report

Country: Jordan
Post: Amman

Prepared By: Mohammed Khraishy, Agricultural Specialist, and Elizabeth Mello, Senior Agricultural Attaché

Approved By: Kurt Seifarth, Regional Agricultural Counselor

Report Highlights:
This FAIRS report lists the export certificates required for food and agricultural products shipped to the Hashemite Kingdom of Jordan. An export certificate matrix is included in this report. The requirements listed herein are specific for consignments coming directly from the United States to Jordan or transshipped in a sealed container with invoices stating that Jordan is the final destination.

Executive Summary

This report lists the documentation in form of certificates required by the importer to present authorities for food and agricultural products shipped to Jordan. Abiding by the export certificate matrix is a short way for quick release of consignment at least cost. The requirements listed herein are specific for consignments coming directly from the United States to Jordan or transshipped in a sealed container with invoices stating that Jordan is the destination.

**Section II – Purpose of Specific Export Certificates**

**SECTION II: PURPOSE OF SPECIFIC EXPORT CERTIFICATE**

See Section I, TABLE 1: List of Export Certificates Required by the Government of Jordan (MATRIX) for clarification of the specific purposes of certifications currently required by Jordan.

The Jordan Standards and Metrology Organization (JSMO) is responsible for the development of standards and ensuring conformity with existing product standards. It delegates to the Jordan Food and Drug Administration (JFDA) product testing responsibilities for food and agricultural products. The former continues to retain however responsibility for the development of standards (including for food) and ensuring conformity with standards. The Ministry of Agriculture (MOA) regulates unprocessed agricultural products; including the import of veterinary drugs and animal vaccines, pesticides, meat and meat products, animal feeds, and seedlings.

JSMO responsibilities include the national metrology system; it also grants (voluntary) quality marks and accredits testing and calibration laboratories.

Jordan maintains the ASYCUDA computerized customs clearance system. This platform simplifies customs clearance procedures. The Ministry of Agriculture along with the Jordan Food and Drug Administration and the Jordan Customs Authority form the border committee that inspects inbound food and agricultural product shipments.

**Section III – Special Attestations Required on Export Certificates**

*Export Certificate*: Export certificates will vary according to the product. The certificate must indicate that the product is produced under a recognized process, ensuring its freedom from public health hazards. The certificate should also indicate that the product is sold for human consumption in the country of origin without restrictions. A Certificate to Foreign Government (CFG) and A Certificate of Exportability (COE) are FDA certificates used to support medical devices. A state certificate might be acceptable on a temporary bases but wouldn’t stand alone.

A directory of entities that issue state-level Certificates of Free Sale is available on FAS website. If you have questions, please send an email to PPTRD@usda.gov.
If questions arise regarding a certificate or attestation needed, exporters should contact FAS Amman or the Jordanian importing firm prior to shipping.

*Certificate of Origin:* The certificate of origin is required by the MOA and JFDA. The certificate of origin must indicate the manufacturing location for the product being imported. State and/or local authorities, including local chambers of commerce in the same jurisdiction as the manufacturing facility, may issue the document. Should the product be packed/processed in the exporting country (i.e., the United States) but originate in another, the product’s certificate of origin must indicate the initial production area information.

*Meat and Meat Products, Poultry and Poultry Products:* Exporters of animal products must work closely with their Jordanian importers, as well as to check the U.S. Department of Agriculture (USDA) – Food Safety and Inspection Service (FSIS) Export Library frequently for the latest updates – these requirements are subject to change and are strictly scrutinized by customs authorities.

A Certificate of Wholesomeness (FSIS 9060-5) must accompany each shipment. Additionally, for shipments of fresh/frozen poultry the following statement must be typed in the “Remarks” section of FSIS Form 9060-S):

"The poultry originates from a county which is free of OIE Listed poultry diseases."

"The poultry and poultry products were produced in accordance to the FSIS National Residue Program."

*Slaughterhouse Credentialing*

For U.S. producers seeking to export meat products to Jordan, their slaughterhouses must have the following credentials:
- Slaughterhouse license certificate from the U.S. federal government.
- Registration code, from USDA.
- Quality assurance certificate ISO 22000 Hazard Analysis Critical Control Point (HACCP)
- Halal Slaughter Observance certificate, from any Islamic Committees in that specific state.

Specific packaging, labeling, and shipping requirements exist for meat, poultry, and their products, importer must acquire the relevant standards from JSMO.

*Islamic Slaughter Certification*

Halal certification is required for export to Jordan. Halal certificates are issued by competent religious organizations in the country of origin, certifying that the shipment of beef, mutton, poultry, and their derivatives have been slaughtered according to Islamic rites and *sharia* laws. Certifying statements should note that all adequate precautions were taken to prevent contamination with non-halal products, and accordingly, the product is suitable for consumption by Muslims in any part of the world.
All federally inspected establishments are eligible to export to Jordan. If products are to be labeled "HALAL," the plant must be able to accommodate the Islamic requirements. The following is presented as information for the exporter. The USDA’s Food Safety and Inspection Service is not responsible for certifying that products intended for export to Muslim countries meet appropriate requirements for religious slaughter.

Halal Slaughter Requirement

- Jordan has the easiest and simplest, a certificate from an Islamic association/institution in the state where the slaughtering took place or by any nationally recognized Islamic association/institution.
- All meat and any product of animal origin for export to Jordan must be accompanied by a halal certificate, except for pork and pork products (which are not halal).
- A halal certificate may be issued by an Islamic association/institution in the state where the slaughtering took place or by any nationally recognized Islamic association/institution.
- The halal certificate should be issued and signed by the approved and licensed Islamic center only, and each consignment should be accompanied by a halal certificate showing the date of slaughtering.
- The halal sign logo should be on the original label from the producing establishment in the country of origin for mass packaging (industrial use) and for each individual retail package. Any added label will not be acceptable.

SECTION IV – GOVERNMENT CERTIFICATE LEGAL ENTRY REQUIREMENTS

General Requirements

SECTION IV: GOVERNMENT CERTIFICATE LEGAL ENTRY REQUIREMENTS
For each certificate listed above- the following should be considered:
For each original certificate need to accompany the product / presented at the time of entry, only to that specific shipment.

Jordan will not accept a Supplier’s or Manufacturer’s Export Declaration as proof of compliance, instead of a certificate issued by a competent authority but it could support it.

Jordan’s Customs Law (1998), article 31 and amendments establishes that all customs declarations must include the following (note: the Jordan Customs Authority reserves the right to request additional documentation):

- A maritime or airway bill of lading.
- A commercial invoice indicating the value, weight, and freight and insurance charges. All invoices require Jordanian diplomatic/consular approval. In the absence of Jordanian diplomatic/consular approval, Jordan’s Customs Director is empowered to accept the country of export’s chamber of commerce certification.
- Commercial invoices are required to describe the product in Arabic.
- A notarized certificate of origin issued by the competent authority in the export country. A value declaration form for shipments exceeding Jordan dinar (JOD) 2,000 (currently JOD 1.00 = ~$1.41).

**Import Licenses:** Pre-import clearance is required for certain commodities. These products include fruits, vegetables, beef, poultry, fish, and eggs. Powdered milk used in industrial applications, as well as any food product making special dietary claims (i.e., infant formula, nutritional supplements, etc.) must obtain an import license. The Jordanian importer is responsible for obtaining the license from the appropriate ministry.

The Ministries of Agriculture (MOA), Industry, Trade and Supply (MOITS), and Health (MOH) all issue import licenses. The Ministry of Agriculture is responsible for issuing pre-import clearances for live animals, for fresh/chilled/frozen beef and beef products, as well as for embalmed wild animals, frozen animal semen, and milk products. The Ministry of Industry, Trade and Supply oversees the issuing of pre-import clearances for barley, rice, wheat, flour, sugar, and corn. The Ministry of Health issues pre-import clearances for medications and antibiotics, athletic food supplements, as well as for potassium bromide, food dyes, ice cream, and baby food, including infant formula.

The clearance, once obtained, acts as an import license. Import licenses normally have a validity of three months, unless otherwise stated. For trans-shipments, the import license is valid for two months. Import licenses for chilled meat are normally valid for only one month. The appeal of rejected shipments is permissible.

Jordan does not require the original import license at the time of product entry. It accepts photocopies or faxes for perishable items (e.g., beef and fruit consignments). Jordan’s Customs Authority releases shipments, under bond, pending submission of original documentation. Multiple consignments are permitted using the same import license until its expiration date or quantity is filled.

The Ministry of Agriculture is currently enforcing a poultry quota. The ministry has established a quota system in 2019 that caps poultry imports (broilers) to 30,000 metric tons (MT), up from 18,000 MT, and to restrict poultry cuts to 18,000 metric tons. Post engaged with GOJ to ensure that U.S. origin is excluded from this measure.

**Registration Requirements:** A few specific products require registration prior to import to Jordan. Most notably, seeds for planting and products making special dietary claims require prior registration. Exporters are encouraged to work closely with Jordanian importers in fulfilling these requirements.

Exporters of dairy products are required to register their facilities with the Jordan FDA prior to shipment. This registration is a simple verification of the exporting firm’s hazard analysis and critical control points (HACCP) certification. It requires that the Jordanian importer provide a copy of the
exporter’s HACCP certificate with a completed application to the Jordan Food and Drug Administration.

In 2017 the Ministry of Agriculture implemented the requirement that slaughterhouses to be registered with the corresponding national authority prior to export to Jordan. In the case of the United States, this is the U.S. Department of Agriculture. The registration is only required once per facility, though it is yet unclear for how long the registration remains valid.

Section V – Other Certification/Accreditation Requirements to Ensure Market Entry

*Customs Law No. 114 (2004)*: Jordanian and foreign trading companies must obtain an importer card from the Ministry of Industry, Trade and Supply for customs clearance purposes. Foreign companies not domiciled in Jordan are exempt from this requirement. Bonded goods, temporary imports, and imports entering under the provisions of *Jordan’s Investment Promotion Law* do not require import licenses. Banks and other non-trading entities such as hospitals, hotels, and Jordanian ministries must obtain a more limited MOITS importer card that authorizes the import of goods specific to the entity’s activities.

Jordan launched its *Customs Integrated Tariff System (CITS)* in August 2005. The system allows importers to access import requirements, as well as evaluate tariff and trade agreement information.

Holds Nos. 1, 3, and 6.

REMARKS

Protein 12.0%, 12.0% moisture basis.

APPEAL NO. (if applicable) ☐

APPLICANT

Maritime International

NAME AND SIGNATURE

John Lingo

This certificate is issued under the authority of the United States Grain Standards Act, as amended (7 U.S.C. 71 et seq.), and the regulations thereunder of CFR 800.955 et seq.). It is issued to show the kind, class, grade, quality, condition, or quantity of grain or com position of a carrier or container for the storage or transportation of grain, or other facts relating to grain as determined by official personnel. The statements on the certificate are considered true at the time and place the inspection or the weighing service was performed. The certificate shall not be considered representative of the lot if the grain is transshipped in or otherwise transferred from the classified carrier or container or if grain or other material is added to or removed from the total lot. If this certificate is not canceled by a superseding certificate, it is receivable by all officers and all courts of the United States against false evidence of the truth of the facts stated therein. This certificate does not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act, or any other Federal law.

WARNING: Any person who shall knowingly make, issue, alter, forge, or counterfeit this certificate, or participate in any such actions, or otherwise violate provisions in the U.S. Grain Standards Act, the U.S. Warehouse Act, or related Federal laws, is subject to criminal, civil, and administrative penalties.

The conduct of all services and the licensing of inspecting (grading/sampling) personnel under the regulations governing such services shall be accomplished without discrimination as to race, color, religion, sex, national origin, age, or handicap.
FGIS Grain Weight Certificate

Official Stowage Examination Certificate

Issued at: Portland, Oregon
Date of Service: 4/2/XX

I certify that on the above date the following identified service was performed with the following results:

- **Identification of Carrier:** M/V Ocean Voyager
- **Location:** Portland at anchor
- **Stowage Area Examined:** Hold Nos. 1, 3, and 6
- **Results:**
  - [X] Stowage area examined on the above date and found to be substantially clean, dry, free of insect infestation, and suitable to store or carry grain or commodity.
  - [ ] Stowage area examined on the above date and found unsuitable to store or carry grain or commodity (see remarks for reason)

**Remarks:**

Applicant: Maritime International, Ltd.
Inspector: Jerry Marsh

This certificate is issued under the authority of the United Grain Standards Act, as amended (7 U.S.C. 71 et seq.), and the regulations thereunder (7 CFR 809.1 et seq.), or the Agricultural Marketing Act of 1946, as amended (7 U.S.C. 1521 et seq.) and regulations thereunder (7 CFR 89.1 et seq.), as appropriate. It is issued to show the condition of a carrier or container for the stowage or transportation of grain or commodity. The statements on this certificate are considered true as to the time and place the inspection service was performed.

If this certificate is not canceled by a superseding certificate, it is receivable by all officers and all courts of the United States as prima facie evidence of the truth of the facts stated therein. This certificate does not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act, or other Federal law.

**WARNING:** Any person who shall knowingly falsify, alter, enhance, or counterfeit this certificate, or participate in any such actions, or otherwise violate provisions in the U.S. Grain Standards Act, the Agricultural Marketing Act of 1946, or related federal laws, is subject to criminal, civil, and administrative penalties. The conduct of all services and licensing of inspecting (grading/sampling) personnel under the regulations governing such services shall be accomplished without discrimination as to race, color, religion, sex, national origin, age, or handicap.

**Manufacturer/processor Name and Address:**
Acme Inc.
789 Processing Lane
Lancaster, PA 17573

**Exporter Name and Address:**
Export LLC
123 Main Street
Washington, DC 20001

**Product Information:**

1. **PRODUCT NAME 1**
   - Production Date: 1/01/2018
   - Type of Packaging: Box
   - Expiration Date: 1/01/2019
   - Quantity: 100

**Total number of products:** 1

**Additional Information:**
(e.g., consignee/importer, lot number)

**Attestation:**
The U.S. Food and Drug Administration certifies that the product(s) described above is subject to its jurisdiction under the U.S. Federal Food, Drug, and Cosmetic Act (the Act). The product(s) described above may not be sold or offered for sale in the United States. The company has certified to the U.S. Food and Drug Administration that:
- the product(s) accords to the specifications of the foreign purchaser;
- the product(s) is not in conflict with the laws of the country to which it is intended for export;
- the shipping package for the product(s) is labeled on the outside that it is intended for export, and
- the product(s) is not sold or offered for sale in the United States.

Based on the information above, the product(s) listed above may be exported pursuant to Section 801(e)(1) of the Act.

**Attestation:**
The product(s) described above and the manufacturing/processing facility where it is produced are subject to the jurisdiction of the Food and Drug Administration under the Federal Food, Drug, and Cosmetic Act. It is certified that the above product(s) may be marketed in, and legally exported from, the United States of America at this time. The manufacturing/processing facility in which the product(s) is produced is subject to periodic inspections. The last such inspection showed that the facility, at that time, appeared to be in substantial compliance with applicable U.S. requirements for the product(s) listed above.
