

**Required Report:** Required - Public Distribution

**Date:** December 19, 2025

**Report Number:** EG2025-0026

**Report Name:** FAIRS Export Certificate Report Annual

**Country:** Egypt

**Post:** Cairo

**Report Category:** FAIRS Export Certificate Report

**Prepared By:** FAS Cairo Staff

**Approved By:** Adam Klein

**Report Highlights:**

This report outlines Egypt's requirements for import permits and export certificates for agricultural products intended for human and animal consumption. It also provides a list of the Egyptian government agencies involved in the entry of imported food products. For assistance on trade policy and port issues in Egypt, U.S. exporters are encouraged to contact FAS Cairo at [AgCairo@usda.gov](mailto:AgCairo@usda.gov).

**DISCLAIMER:** This report was prepared by the OAA Cairo office, for U.S. exporters of domestic food and agricultural products. While every possible care has been taken in the preparation of this report, information provided may not be completely accurate either because policies have changed since its preparation, or because clear and consistent information about these policies was not available. It is highly recommended that U.S. exporters verify the full set of import requirements with their foreign customers, who are normally best equipped to research such matters with local authorities, before any goods are shipped. FINAL IMPORT APPROVAL OF ANY PRODUCTS IS SUBJECT TO THE IMPORTING COUNTRY'S RULES AND REGULATIONS AS INTERPRETED BY BORDER OFFICIALS AT THE TIME OF PRODUCT ENTRY.

### Executive Summary

This report contains information on Egypt's certificate requirements established by Egyptian government authorities for the importation of U.S. food and agricultural products into Egypt. These requirements stem from regulations issued primarily from the National Food Safety Authority (NFSA), the Government Organization for Veterinary Services (GOVS), and the Central Administration for Plant Quarantine (CAPQ). U.S. exporters are encouraged to work closely with their Egyptian clients on delivering such certificates to the appropriate government authorities.

### Section I – Required Export Certificates

**TABLE 1: List of Export Certificates Required by the Government of Egypt (MATRIX)**

PRODUCT	CERTIFICATE NAME	ATTESTATION	PURPOSE	REQUESTING MINISTRY
All Products	Certificate of Origin	That the product is of U.S.-origin	Certification of country origin	Ministry of Finance/Egypt Customs Authority
All Products	Health Certificate	That the product is safe for consumption	Certification of food safety	National Food Safety Authority
Grains and Oilseeds	Phytosanitary Certificate USDA - Animal and Plant Health Inspection Service (APHIS)  (NOTE: The certificate must include the import permit number issued by	That the product complies with Egypt's phytosanitary import requirements in accordance with the regulated pest list issued in the Ministry of Agriculture and Land Reclamation decree 562 (2019) – Most recent Plant	Phytosanitary certification	Ministry of Agriculture/Central Administration for Plant Quarantine

	the Central Authority for Plant Quarantine)	Quarantine Regulations		
<b>Grains and Oilseeds</b>	Grains Inspection Certificate USDA – Federal Grain Inspection Service (FGIS)  (NOTE: This is a Quality/Grading Conformity Certificate)	That the product maintains a specified quality/grading conformity	Quality certification	National Food Safety Authority General Organization for Export and Import Control “Soybean or oil, corn for feed and wheat for private sector use”
<b>Grains and Oilseeds</b>	Stowage Examination Certificate USDA – Federal Grain Inspection Service (FGIS)	That the product maintains a specified quality/grading conformity	Quality certification	National Food Safety Authority General Organization for Export and Import Control “Soybean or oil, corn for feed and wheat for private sector use”
<b>Vegetable Oils</b>	Certificate of Analysis (USDA – Federal Grain Inspection Service (FGIS) and/or by a private laboratory)	That the product maintains a specified quality/grading conformity	Certification that Laboratory results for the product matches contract terms and conditions.	National Food Safety Authority
<b>Meat and Meat Products; Poultry, and Poultry Products (*)</b>	Export Certificate USDA – Food Safety and Inspection Service (FSIS) Forms: 9060-5, 9060-5A, and 9060-5B	That the product maintains a specified quality/grading conformity	Certification of product safety and wholesomeness	General Organization for Veterinary Services National Food Safety Authority
<b>Other Animal products including</b>	VS form 16-4 (APHIS)	1. The hides/skins are derived from animals that were subjected to antemortem and postmortem inspection. 2. The	Certification of product safety and wholesomeness	General Organization for Veterinary Services

<p><b>but not limited to hides and skins</b></p>		<p>hides/skins are not derived from animals slaughtered as part of a federal disease eradication program. 3. The hides/skins are subjected to one of the following processes: Brining in a marine salt solution containing two percent (2%) sodium carbonate or equivalent for at least 16 hours at a temperature between 15 °C and 21 °C, or Dry salting with marine salt containing two percent (2%) sodium carbonate or equivalent for seven days, or Treatment for at least 28 days with salt (sodium chloride) containing two percent (2%) sodium carbonate.</p>		
<p><b>Wool (greasy)</b></p>		<p>“ADDITIONAL DECLARATIONS” section: The United States is also free of lumpy skin disease, sheep pox, goat pox, and peste des petits ruminants virus. The wool originates from live animals or animals that have passed ante-mortem inspection for slaughter for human consumption. The wool described below was collected from animals that were not at the time of</p>		

		shearing under movement restrictions for anthrax or any disease transmissible by the certified product.		
<b>Meat and Meat Products; Poultry, and Poultry Products</b>	Islamic Slaughter Certificate	That the meat is halal	Certification that the product derives from animals slaughtered according to the Islamic rites	General Organization for Veterinary Services
<b>Meat and Meat Products; Sheep Casings</b>	Health Certificate from APHIS	Two additional declarations The materials come from sheep and goats that showed no clinical signs of scrapie on the day of slaughter The slaughtered animals should come from area free from scrapie	Certification of animal health and disease freedom	General Organization for Veterinary Services
<b>Day-old Chicks, Hatching Eggs</b>	Veterinary Certificate Lab certificate	Free of disease	Health certification	General Organization for Veterinary Services
<b>Fish and Fish Products</b>	Health Inspection Certificate  Certificate of Origin National Oceanic and Atmospheric Administration (NOAA)	Fish and fish products not caught utilizing explosives or in contaminated waters	Health certification	General Organization for Veterinary Services Verified by GOVS and NFSA at point of entry
<b>Fish and Fish Products</b>	Export Certificate USDA – Food Safety and Inspection Service (FSIS) Form: 9060-5S	Product safety and wholesomeness	Health certification	General Organization for Veterinary Services Verified by GOVS and NFSA at point of entry

<b>Dairy Products</b>	Sanitary Certificate USDA – Agricultural Marketing Service (AMS)	Product safety and wholesomeness	Health certification	General Organization for Veterinary Services National Food Safety Authority
	Subject to Halal certification	The Dairy products are halal	Halal Certification	General Organization for Veterinary Services National Food Safety Authority
<b>Fruits and Vegetables</b>	Phytosanitary Certificate (USDA - Animal and Plant Health Inspection Service (APHIS))	That the product complies with Egypt's phytosanitary import requirements in accordance with the regulated pest list issued in the Ministry of Agriculture and Land Reclamation decree 562 (2019) – New Plant Quarantine Regulations	Phytosanitary certification	Ministry of Agriculture/Central Administration for Plant Quarantine
<b>Planting Seeds</b>	Phytosanitary Certificate USDA - Animal and Plant Health Inspection Service (APHIS)	NOTE: Ministry of Agriculture and Land Reclamation authorization is required for the import of seeds for planting.	Phytosanitary certification	Ministry of Agriculture/Central Authority for Plant Quarantine

*SOURCE: FAS Cairo*

NOTE: (\*) Any processed products containing meat or poultry must meet the same requirements listed under Meat, Poultry, and Products. For additional requirements of meat, poultry, and products see the FSIS Export Library:

<https://www.fsis.usda.gov/inspection/import-export/import-export-library/egypt>.

## Section II – Specific Attestations Required on Export Certificates

**Export Certificate:** These certificates will vary according to the product. The certificate must indicate that the product is produced under a recognized process, ensuring its freedom from public health hazards. The certificate should also indicate that the product is sold for human consumption in the country of origin without restrictions. Egypt accepts the state certificate of free sale. For more information on the entities that issue a state level certificate of free sale, please visit <https://www.fas.usda.gov/certificate-free-sale-point-contact-list>. If questions arise regarding a certificate or attestation needed, exporters should contact FAS/Cairo ([agcairo@usda.gov](mailto:agcairo@usda.gov)) or the Egyptian importing firm prior to shipping.

**Certificate of Origin:** The certificate is required by the Egypt Customs Authority. The General Organization for Export and Import Control (GOEIC) is no longer responsible for most imports of food and food products. The National Food Safety Authority (NFSA) is responsible for imports (as of November 15, 2019). The role of GOIEC in agricultural products is limited to soybean for crushing, corn for feed use, and private sector wheat imports. (See: [GAIN Report Number:EG-19010 - Egypt, Establishment of the National Food Safety Authority](#))

The Certificate of Origin must indicate the manufacturing location of the product imported. State and/or local authorities, including local chambers of commerce in the same jurisdiction as the manufacturing facility, may issue the document. Should the product be packed/processed in the exporting country (i.e., the United States) but originate in another, the product's certificate of origin must indicate the initial production area information.

**Grain and Oilseeds:** A certificate attesting that aflatoxin testing has been completed must accompany all grain and oilseed shipments. NFSA mandates aflatoxin levels be less than two parts-per-million (ppm) on any imported grain shipment. Egyptian authorities require that grain shipments be accompanied by paperwork indicating the crop year and/or production date of the imported goods. All grain imports must adhere to the Egyptian standard 1601 (2005). The standard specifies the quality/grading characteristics, as well the permissible tolerances of contaminants.

**Meat and Meat Products, Poultry and Poultry Products:** Exporters of animal products must work closely with their Egyptian importers, as well as frequently check the U.S. Department of Agriculture (USDA) – [Food Safety and Federal Inspection \(FSIS\) Export Library](#) for the latest updates – these requirements are subject to change and are strictly scrutinized by customs authorities.

In addition to the Certificate of Wholesomeness (FSIS 9060-5), a letterhead certificate must accompany each shipment. The accompanying letterhead certificate for meat and meat products must attest that:

- Foot-and-mouth disease (FMD) and rinderpest have not occurred in the United States during the previous 12-months.
- The product was derived from animals born in the United States or from animals legally imported into the United States.
- The United States is recognized by the World Organization for Animal Health (OIE) as being a negligible bovine spongiform encephalopathy (BSE) risk country.

- The product was not derived from animals that were slaughtered in an official disease eradication program.
- The product does not contain or is not contaminated with specified risk materials as defined by the USDA Food Safety and Inspection Service in U.S. regulations, 9 CFR 310.22(a). (See, e.g., <https://www.law.cornell.edu/cfr/text/9/310.22>)

For whole frozen poultry, leg quarters, drumsticks and thighs, a letterhead certificate attesting to the following must accompany the shipment:

- The poultry meat is derived from birds that were not under official quarantine for serious epizootic diseases affecting poultry including highly pathogenic notifiable avian influenza (HPNAI), as defined by the World Organization for Animal Health.
- The meat is obtained from poultry found to be free of any clinical signs of systemic infectious or contagious diseases to which the species is susceptible as determined by ante- and post-mortem inspection.
- The poultry meat was handled under hygienic conditions under federal veterinary inspection and has not been treated with and does not contain any preservatives, coloring matter, hormones or other substances harmful to human health.
- The poultry meat is wholesome and fit for human consumption.
- The means of transport, handling, and loading conditions meet the hygienic requirements of the United States.

Specific packaging, labeling, and shipping requirements exist for meat, poultry, and their products (See: [GAIN-EGYPT \(2019-0025\) Food and Agricultural Import Regulations and Standards Country Report – FAIRS Narrative Egypt 2020](#)) and the FSIS Export Library.

**Meat Products and Halal Certification:** All U.S. federally inspected establishments are eligible to export fresh/frozen halal beef, halal beef products, and processed halal beef products to Egypt. Whole frozen poultry, leg quarters, drumsticks, and thighs must originate from an establishment on the list of U.S. poultry plants approved for export of halal poultry to Egypt. Processed poultry products may originate from any federally inspected establishment so long as the source slaughter establishment is on the “Eligible Plant List for Egypt.” For processed poultry products, the source slaughter plant number should be included in the “Remarks” section of FSIS Form 9060-5 (“Poultry for this shipment originated from Est. xxx.”).

All shipments of further processed poultry products must be accompanied by a copy of the halal certificate from the original approved slaughter establishment. Because establishments seeking to export to Egypt must be approved for halal slaughter, FSIS Form 9080-3, Establishment Application for Export is not required.

Per the USDA FSIS Export Library, “exporter[s] must obtain a Certificate of Islamic Slaughter from a member of an Islamic Center or Islamic organization. A Certificate of Islamic Slaughter is a certificate issued by a member of a Muslim organization recognized by the importing country to provide this service; the certificate states that animals were slaughtered according to Muslim religious requirements. This certificate must accompany products labeled ‘Halal.’”

For more information, see the USDA FSIS Export Library: <https://www.fsis.usda.gov/inspection/import-export/import-export-library/egypt>.

**Hormone-Free Certification, Beef and Dairy Products:** On November 15, 2019, NFSA assumed responsibility for handling food imports. However, NFSA continues to rely on import requirements issued by other agencies such as the General Organization for Veterinary Services (GOVS). Through a memorandum-of-understanding, GOVS continues to issue import permits, as well as sample and test beef and dairy product imports on the behalf of NFSA.

Previously in 2012, GOVS started requiring the submission of hormone-free certificates for beef and dairy products as part of its import permit licensing requirements. However, GOVS did not enforce the submission of hormone-free certificates, opting instead to test product upon arrival for synthetic hormones.

**Fish and Fish Products:** Export certificates accompanying fish and fish products shipped to Egypt must attest to the fishing method, potential level of contamination, as well as dates of fishing, packaging and freezing. Attestations must indicate that the fish and their products were not harvested using explosives. Similarly, the certificates must confirm that the fish were not caught in areas contaminated by radiation, fertilizers, or pesticides. Dates of fishing, packaging and freezing (below -18 degrees centigrade) must be indicated on accompanying documents.

**Pre-Clearance – Advanced Cargo Information (ACI) System:** Egypt’s Ministry of Finance issued Decree 38/2021 on pre-shipment registration - Advanced Cargo Information (ACI) - under a new single window system that seeks to modernize and automate customs administration, simplify procedures, and reduce clearance times. The procedure is complementary to the Nafeza platform - applying the single window system. The pre-shipment process generates an ID number that should be added to all documents of the shipment including certificates. However, control agencies such as plant quarantine, veterinary quarantine and food safety authority, agreed not to include the ACID on the phytosanitary/sanitary and health certificates.

## **Section III – Government Certificate Legal Entry Requirements**

### **General Requirements**

For U.S. agricultural producers planning to ship their products to Egypt, exporters need to consider the following certificate legal entry requirements:

- Original certificate must accompany shipment at time of entry;
- Certificates are used for only the accompanying shipment since it carries the details of the shipment; and
- Modification to any certificate is not permitted once issued and shipped with the accompanying the product.

## Section IV – Other Certification/Accreditation Requirements to Ensure Market Entry

**TABLE 2: EGYPT, List of Other Certification/Accreditation Requirements**

PRODUCT	DOCUMENTATION	REQUIREMENTS
<b>All Products</b>	Commercial Invoice	Must include country of origin, applicable HS codes, number of units, price per unit, and total value for customs valuation.
<b>All Products</b>	Bill of Lading	Should include names and addresses of the shipper (consigner) and receiver (consignee), shipment date, quantity, exact weight, value, and freight classification.
<b>All Products</b>	Packing List	Must list specific products and batches per container. Weight certificates may be used for bulk commodities.
<b>All Products</b>	Batch Number Certificate	Certain chemicals /food additives will require that batch numbers be tracked for added traceability.
<b>All Products</b>	Certificate of Insurance	In the case of discrepancies, Egyptian officials may request product details as listed to insurers of those goods.
<b>Food Additives</b>	Registration Requirement	Must be pre-registered with the Egyptian Ministry of Health prior to shipment.
<b>Grain and Oilseeds</b>	Certificate of Fumigation	Certification of fumigation must be provided. These services may be provided by the servicing firm or by FGIS.
<b>Grain and Oilseeds</b>	Aflatoxin Analysis	Aflatoxin rates may not exceed 2 ppm. Certification of testing in a public or private lab must be included.
<b>Grain and Oilseeds</b>	Crop Year	Documentation must list the crop year applicable to the shipment.
<b>Vegetable Oils</b>	Federation of Oils, Seeds, and Fats Association (FOSFA) International Regulation Certificate	Evidence must be provided that the loading vessel conforms to FOSFA international regulations.
<b>Vegetable Oils</b>	Exporter statement noting specification of oil/fat	Chemical specifications must be provided for any new or atypical oils.
<b>Meat and Meat Products; Poultry, Poultry and Products</b>	Packaging Requirement	Egyptian regulations require that products be packed in sealed plastic bags/cartons, with labeling inside of packaging. See the FSIS Export Library for other requirements. Exporters of meat and poultry are strongly encouraged to work closely with Egyptian importers, as import regulations are subject to change.
<b>Fish</b>	Fishing Method	Attestations must indicate that the fish and their products were not harvested using explosives.
<b>Fish</b>	Potential Level of Contamination	Certification must confirm that the fish were not caught in areas contaminated by radiation, fertilizers, or pesticides.

<b>Fish</b>	Freezing Certificate	Documentation must be provided demonstrating that the products were stored and shipped at -18 degrees centigrade.
<b>Dairy Products</b>	Production Date	Paperwork and/or label must indicate the production date for computation of expiry date.
<b>Dairy Products</b>	Dioxin Analysis	Products must be tested for dioxins.
<b>Dairy Products</b>	Certificate of Analysis	Analysis demonstrating fat, moisture, plate count, antibiotic presence, and potential pathogen presence must be included.
<b>Margarine</b>	Manufacturer Declaration	A certificate indicating the type of oil used in the product must be included
<b>Planting Seeds</b>	Seed Analysis Certificate	Note that prior approval is required from the Egyptian Ministry of Agriculture prior to the importation of any seeds for planting. Exporters are strongly encouraged to work closely with importers and Egyptian officials prior to shipping these products.

*Source: FAS Cairo*

**Additives:** In September 2020, NFSA issued Decision 4 (2020) regarding food additives accepted for use by industry (See: [EG2020-0060: Report Name: Egypt National Food Safety Authority Issues Food Additive Regulation](#)). The decision replaced Decree 204 (2015) of Ministry of Health regulated food additives. U.S. exporters of food additives should note that pre-registration with Egypt's Ministry of Health required prior to shipment is no longer valid, as NFSA's decision replaced this decree. NFSA did not issue import requirements for the import and use of food additives; thus, it is not mandatory to include batch numbers packaging and packing lists for added traceability. However, it is important to maintain complete record-keeping until clear guidelines are published. This would also include documentation accompanying food additives describing products using both their scientific and common names. Exporters of these products are encouraged to work closely with NFSA and local importers.

**Bio-Fortified Foods:** Imports of bio-fortified foods will now follow the same procedures of special dietary foods. Exporters of bio-fortified foods should note that these products require pre-registration with NFSA prior to shipment. Exporters of these products should contact local importers to stay updated on the registration process.

**Canned Foods:** U.S. exporters of canned foods are advised to include batch numbers in packing lists and packaging. Egyptian authorities depend on batch numbers for traceability in case of a rejected shipment or in the eventuality of product recalls. Failure to include these numbers will delay customs clearance.

**Planting Seeds:** Prior approval is required from the Ministry of Agriculture's Central Administration of Seed Certification and Testing (CASC) for the import of seeds for planting. Once an approval is granted, the Central Administration for Plant Quarantine will issue a seed import license. Firms wishing to export seeds for planting will be required to provide an international seed testing certificate or a testing certificate issued from an official inspection station abroad including the variety, the degree of purity and the germination percentage, prior to applying for an import permit from the Ministry of Agriculture.

Upon issuance of an import permit, subsequent shipments must be accompanied by the Egyptian import permit, a U.S. seed testing certificate, and the applicable phytosanitary certificate. Since requirements for

import of these products is complex and time-consuming, exporters are urged to work with Egyptian importers and Ministry of Agriculture officials well in advance of shipping.

**Oils – Atypical:** Oils considered non-standard must be accompanied by a certificate of analysis describing their chemical composition. Non-standard oils are not clearly defined, but generally considered by Egypt to be blended or essential oils, not typically shipped for human consumption. U.S. exporters of these products are urged to work with Egyptian importers to ensure compliance with Egypt's customs regulations.

**Additional Information:** The Egyptian government does not require attestation of radioactivity for imports.

This certificate is issued under the authority of the United States Grain Standards Act, as amended (7 U.S.C. 71 et seq.), and the regulations thereunder (7 CFR 800.0 et seq.). It is issued to show the kind, class, grade, quality, condition, or quantity of grain; or the condition of a carrier or container for the storage or transportation of grain; or other facts relating to grain as determined by official personnel. The statements on the certificate are considered true at the time and place the inspection or the weighing service was performed. The certificate shall not be considered representative of the lot if the grain is trans shipped or is otherwise transferred from the identified carrier or container or if grain or other material is added to or removed from the total lot. If this certificate is not canceled by a superseding certificate, it is receivable by all officers and all courts of the United States as prima facie evidence of the truth of the facts stated therein. This certificate does not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act, or other Federal law.																																													
<b>WARNING:</b> Any person who shall knowingly falsely make, issue, alter, forge, or counterfeit this certificate, or participate in any such actions, or otherwise violate provisions in the U.S. Grain Standards Act, the U.S. Warehouse Act, or related Federal laws, is subject to criminal, civil, and administrative penalties.																																													
The conduct of all services and the licensing of personnel under the regulations governing such services shall be accomplished without discrimination as to race, color, religion, sex, or national origin.
