

**Required Report:** Required - Public Distribution

**Date:** June 27, 2025

**Report Number:** BG2025-0007

**Report Name:** FAIRS Export Certificate Report Annual

**Country:** Bangladesh

**Post:** Dhaka

**Report Category:** FAIRS Export Certificate Report

**Prepared By:** Tanvir Mahmud

**Approved By:** Sarah Gilleski

**Report Highlights:**

This report outlines the technical requirements and certificates for exporting food and agricultural products to Bangladesh. Post has made changes to Sections, I, II, and IV.

## **Table of Contents**

<b>EXECUTIVE SUMMARY.....</b>	<b>4</b>
<b>SECTION I. LIST OF ALL EXPORT CERTIFICATES REQUIRED BY THE IMPORTING COUNTRY AND PRODUCTS COVERED .....</b>	<b>5</b>
<b>SECTION II. SPECIFIC ATTESTATIONS REQUIRED ON EXPORT CERTIFICATE .....</b>	<b>17</b>
<b>SECTION III. GOVERNMENT CERTIFICATE LEGAL ENTRY REQUIREMENTS .....</b>	<b>18</b>
<b>SECTION IV. OTHER CERTIFICATION/ACCREDITATION REQUIREMENTS .....</b>	<b>19</b>
<b>APPENDIX I. LINKS FOR EXPORT CERTIFICATES .....</b>	<b>20</b>

**DISCLAIMER:**

This report was prepared by OAA Dhaka for U.S. exporters of domestic food and agricultural products. While every possible care has been taken in the preparation of this report, information provided may not be completely accurate either because policies have changed since its preparation, or because clear and consistent information about these policies was not available. It is highly recommended that U.S. exporters verify the full set of import requirements with their foreign customers, who are normally best equipped to research such matters with local authorities, before any goods are shipped. FINAL IMPORT APPROVAL OF ANY PRODUCTS IS SUBJECT TO THE IMPORTING COUNTRY'S RULES AND REGULATIONS AS INTERPRETED BY BORDER OFFICIALS AT THE TIME OF PRODUCT ENTRY.

## **EXECUTIVE SUMMARY**

Bangladesh requires U.S. government-issued sanitary and phytosanitary certificates, country of origin certificates, health certificates (fit for human consumption), and radiation certificates for many products including all plant products, fisheries and livestock products, meat, poultry, dairy, and fresh fruit, as well as livestock feed and ingredients, and processed food products. Original certificates, along with a letter of credit are required.

**SECTION I. LIST OF ALL EXPORT CERTIFICATES REQUIRED BY THE IMPORTING COUNTRY AND PRODUCTS COVERED**

<b>Products</b>	<b>Title of Certificate</b>	<b>Attestation required on certificate</b>	<b>Purpose</b>	<b>Requesting Ministry</b>
All agricultural products, processed food products, refined edible oil, plant and plant products, poultry, fish and fish products, milk and milk products, meat and meat products, eggs, fish feed, poultry feed, poultry meal, fish meal, feed industry raw materials derived from plant, fish or animal	Country of Origin or Certificate of Origin	There is no specific negotiated attestation or certificate format.	To authenticate the country of origin of the products being exported to Bangladesh	Customs; National Board of Revenue
	No specific title	Certificate stating products are manufactured in the United States.		
	See Note - 1	Attested by the competent authority or association of industry and commerce or recognized chamber of commerce related to the product.		
	Radioactivity level test certificate	There is no specific negotiated attestation or certificate format.	To authenticate that the food has permissible levels of radiation to be consumed	Bangladesh Atomic Energy Commission; Ministry of Science and Technology; and Ministry of Commerce
	No specific title	The certificate of radioactivity test must indicate the level of Cesium (Cs-137) found in each kilogram of goods shipped.		
	Example: Radiation Certificate, or Certificate of Analysis, or Health Certificate	The competent authority of the exporting country, competent laboratory, or private testing, inspection and certification service company		
	See Note - 1			
	Health Certificate	It requires a specific attestation, but there is no specific negotiated format for the certificate	Food safety, quality, public health, animal	Customs; National Board of Revenue
	See Note - 1			

Products	Title of Certificate	Attestation required on certificate	Purpose	Requesting Ministry
		<p>A certificate stating, “<i>Fit for human consumption.</i>” or “<i>Not injurious to human health</i>”, “<i>No harmful substance is mixed</i>” or “<i>Free from all types of germs</i>”</p> <p>“<i>Fit for fish, poultry or animal Consumption.</i>”</p> <p>Provided by the competent laboratory of the exporting country or private testing, inspection and certification service company</p>	health, and veterinary oversight	
Poultry feed, fish feed, animal feed and animal feed ingredients	<p>No specific title</p> <p>Example: Certificate of Analysis or Health Certificate or Test Report</p> <p>See Note - 1</p>	<p>There is no specific negotiated attestation or certificate format.</p> <p>Certificates indicating feed are free from chloramphenicol, nitrofurans, antibiotics, melamine, and genetically modified organisms</p> <p>Certificates indicating fish feed is free from harmful drugs, hormones and steroids</p> <p>Provided by the competent laboratory of the exporting country or private testing, inspection and certification service</p>	Animal health and veterinary oversight	Department of Livestock Services and Department of Fisheries, Ministry of Fisheries and Livestock

<b>Products</b>	<b>Title of Certificate</b>	<b>Attestation required on certificate</b>	<b>Purpose</b>	<b>Requesting Ministry</b>
		company		
Fish meal prepared from fish and other sources (shrimp meal, and krill meal, etc.)	No specific title  Example: Certificate of Analysis  See Note - 1	There are no specific negotiated attestations or certificate format.  Certificate indicating that the imported goods are free from chloramphenicol, nitrofurans, harmful antibiotics, harmful chromium, tannery by-products, melamine, free from pig products.  The competent authority of the exporting country or private testing, inspection and certification service company	Animal health and public health	Department of Livestock Services, Ministry of Fisheries and Livestock
Meat and bone meal (MBM) (non-pork) and protein concentrates  Note: Currently, all non-pork MBM is banned in Bangladesh. These requirements will apply only if imports of non-pork MBM resumes and previous regulations are maintained. Post will publish a GAIN report if the situation	No specific title  Example: Certificate of Analysis  See Note - 1	There are no specific negotiated attestations or certificate format  Certificate confirming that the product is free from Bovine Spongiform Encephalopathy (BSE), Transmissible Spongiform Encephalopathy (TSE), Anthrax and tuberculosis (TB), harmful antibiotics, chloramphenicol, nitrofurans, and free of harmful chromium, tannery by-products and melamine.  The competent authority	Animal health and public health	Department of Livestock Services, Ministry of Fisheries and Livestock

<b>Products</b>	<b>Title of Certificate</b>	<b>Attestation required on certificate</b>	<b>Purpose</b>	<b>Requesting Ministry</b>
changes.		of the exporting country or private testing, inspection and certification service company		
Chicks (day old chicks)	<p>Veterinary Health Certificate</p> <p>Title: Certificate for Poultry or Hatching Eggs for Export</p> <p>APHIS VS FORM 17-6</p>	<p>Generic attestation and format of the APHIS certificate.</p> <p>A certificate confirms that the chicks are free from contagious diseases (e.g., avian influenza).</p> <p>Competent authority of the exporting country</p>	Animal health	Department of Livestock Services, Ministry of Fisheries and Livestock
Live poultry and birds	Live Animal Health Certificate	<p>There is no specific negotiated attestation or certificate format.</p> <p>A certificate that ensures poultry and birds are free from Avian Influenza.</p> <p>Issued by the competent authority of the exporting country.</p>	Animal health and food safety	Department of Livestock Services, Ministry of Fisheries and Livestock
Eggs	<p>Health Certificate</p> <p>See Note - 1</p>	<p>There is no specific negotiated attestation or certificate format.</p> <p>A certificate that states the goods are free from Avian Influenza and harmful bacteria.</p> <p>The competent authority of the exporting country</p>	Animal health	Department of Livestock Services, Ministry of Fisheries and Livestock
Bovine Semen	Health Certificate	There is no specific	Animal	Department of

<b>Products</b>	<b>Title of Certificate</b>	<b>Attestation required on certificate</b>	<b>Purpose</b>	<b>Requesting Ministry</b>
	See Note - 1	<p>negotiated attestation or certificate format.</p> <p>A certificate noting the semen is free from any contagious and venereal diseases and the exporting country is free from Bovine Spongiform Encephalopathy (BSE).</p> <p>The competent authority of the exporting country.</p>	health	Livestock Services, Ministry of Fisheries and Livestock
Milk and milk products	<p>No specific title</p> <p>Certificate of Analysis or Test Report</p> <p>See Note - 1</p>	<p>There is no specific negotiated attestation or certificate format.</p> <p>A certificate stating that the product is free from added melamine.</p> <p>The competent authority of the exporting country or private testing, inspection and certification service company</p>	Food safety	Bangladesh Food Safety Authority, Ministry of Food
	<p>No specific title</p> <p>See Note - 1</p>	<p>There is no specific negotiated attestation or certificate format.</p> <p>Certificate stating that the cows from which the milk originates have not been given Estrogenic Hormones and Hormone Growth Promotants (HGP's).</p> <p>The competent authority of the exporting country.</p>	Food safety	Department of Livestock Services, Ministry of Fisheries and Livestock

<b>Products</b>	<b>Title of Certificate</b>	<b>Attestation required on certificate</b>	<b>Purpose</b>	<b>Requesting Ministry</b>
	No specific title See Note - 1	There is no specific negotiated attestation or certificate format.  Certificates that the level of heavy metals are following Codex standards.  The competent authority of the exporting country or private testing, inspection and certification service company.	Food safety	Bangladesh Standard and Testing Institute, Ministry of Industries
Fish	No specific title  Certificate of Analysis or Test Report  See Note - 1	There is no specific negotiated attestation or certificate format.  A certificate that the fish are free from formalin.  Issued by the Government or any authority recognized by the Government of the exporting country or private testing, inspection and certification service company	Public health and food safety	Department of Fisheries, Ministry of Fisheries and Livestock
Beef, chevon, or chicken or other consumable meat	No specific title See Note - 1	There is no specific negotiated attestation or certificate format.  A certificate that the imported goods are free from Bovine Spongiform Encephalopathy (BSE) and Avian Influenza	Food safety	Department of Livestock Services, Ministry of Fisheries and Livestock

<b>Products</b>	<b>Title of Certificate</b>	<b>Attestation required on certificate</b>	<b>Purpose</b>	<b>Requesting Ministry</b>
		(when applicable). Attested by the competent authority of the exporting country		
Vegetable seed and grain used as food	Country of Origin or Certificate of Origin  No specific title  See Note - 1	There is no specific negotiated attestation or certificate format.  Certificate stating products are manufactured in the United States.  Attested by the competent authority or association related to the product.	To authenticate the country of origin of the products being imported to Bangladesh	Customs, National Board of Revenue
	Radioactivity level test certificate  No specific title.  Example: Radiation Certificate, or Certificate of Analysis, or Health Certificate  See Note - 1	There is no specific negotiated attestation or certificate format.  The certificate of radioactivity test must indicate the level of CS-137 found in each kilogram of goods shipped.  The competent authority of the exporting country or private testing, inspection and certification service company.	To authenticate that the product has a permissible level of radiation to be consumed by humans.	Bangladesh Atomic Energy Commission, Ministry of Science and Technology
	Phytosanitary Certificate (APHIS - PPQ Form 577)	Phytosanitary certificate from the exporting country  Declaration that the plants or plant products are free from quarantine	Plant health	Plant Quarantine Wing, Ministry of Agriculture

Products	Title of Certificate	Attestation required on certificate	Purpose	Requesting Ministry
		pests. The import permit (IP) number and date must be listed in the phyto certificate.		
Potato seed	Phytosanitary Certificate (APHIS - PPQ Form 577)	<p>Phytosanitary certificate from the exporting country.</p> <p>Attestation that the plants or plant products are free from quarantine pests.</p> <p>Declaration that the seed potatoes from which the consignment is derived were not grown in the vicinity of unhealthy potato crops and were inspected by an authorized official of Phyto pathological service of the country of origin.</p> <p>The consignment should be free from all injurious insects, and diseases and that no case of occurrence of Black wart (<i>Synchytrium endobioticum</i>), Golden Nematode/Pale Nematode (<i>Globodera rostochiensis</i>), Colorado potato beetle (<i>Leptinotarsa decemlineata</i>) was recorded within a five-kilometer radius of the places where the potato crop was grown during the last twelve months.</p>	Plant health	Plant Quarantine Wing, Ministry of Agriculture

<b>Products</b>	<b>Title of Certificate</b>	<b>Attestation required on certificate</b>	<b>Purpose</b>	<b>Requesting Ministry</b>
		<p>The potato seeds should be free from virus diseases Potato virus-X. (PVX) Potato latent virus, Potato Spindle tuber Virus.</p> <p>The potato seeds should be declared as certified seed by the competent authority.</p> <p>The consignment should be free from shoots, leaves, roots and soil sticking to tubers, and quarantine weed seeds.</p> <p>The import permit (IP) number and date must be listed in the phyto certificate.</p>		
Rice (non-seed)	Phytosanitary Certificate (APHIS - PPQ Form 577)	<p>Phytosanitary certificate from the exporting country.</p> <p>Declaration that the plants or plant products to be free from quarantine pests.</p> <p>The import permit (IP) number and date must be listed in the phyto certificate.</p>	Plant health	Plant Quarantine Wing, Ministry of Agriculture
Hybrid rice seeds	Phytosanitary Certificate (APHIS - PPQ Form 577)	Phytosanitary certificate stating that the seed is purified with hot water treatment and approved pesticides.	Plant health	Plant Quarantine Wing, Ministry of Agriculture

Products	Title of Certificate	Attestation required on certificate	Purpose	Requesting Ministry
		<p>Declaration that the plants or plant products are free from quarantine pests.</p> <p>The import permit (IP) number and date must be listed in the phyto certificate.</p>		
Corn (Seed)	Phytosanitary Certificate (APHIS - PPQ Form 577)	<p>Phytosanitary certificate from the exporting country</p> <p>Declaration that the consignments are free from soil and extraneous materials.</p> <p>Declaration that the plants or plant products are free from quarantine pests.</p> <p>Declaration that the seeds were collected from fields which had been regularly inspected by the competent authority of the country of origin and were found to be free from bacterial wilt and Bacterial leaf blight or Stewart's disease caused by <i>Erwinia stewartii</i>. It also declares that the crop was not infected with Downy Mildew caused by any of the following strains of pathogen: (i) <i>Sclerospora philippensis</i>; (ii) <i>Sclerospora sacchari</i>; (iii) <i>Sclerospora maydis</i>;</p>	Plant health	Plant Quarantine Wing, Ministry of Agriculture

Products	Title of Certificate	Attestation required on certificate	Purpose	Requesting Ministry
		<p>(iv) <i>Sclerospora rayssiae</i> var <i>zeae</i>.</p> <p>The consignments should be free from quarantine weed seeds.</p> <p>The import permit (IP) number and date shall be listed in the phyto certificate.</p>		
Corn (Non-Seed), Distillers Dried Grains with Solubles (DDGS), Soybeans, Soybean meal, Wheat	Phytosanitary Certificate (APHIS - PPQ Form 577)	<p>Phytosanitary certificate from the exporting country</p> <p>Declaration that the plants or plant products are free from quarantine pests.</p> <p>Declaration that the consignments are free from soil and extraneous materials.</p> <p>The import permit (IP) number and date must be listed in the phyto certificate.</p>	Plant health	Plant Quarantine Wing, Ministry of Agriculture
Refined edible oil	<p>Certificate of Analysis</p> <p>No specific title</p> <p>See Note - 1</p>	<p>There is no specific negotiated attestation or certificate format.</p> <p>Optional certificates from exporting countries that confirm the quality standard issued by the competent authority of the exporting country and importing country or private testing, inspection and certification service</p>	Food safety and public health	Bangladesh Standard and Testing Institute, Ministry of Industries

Products	Title of Certificate	Attestation required on certificate	Purpose	Requesting Ministry
		company.		
Raw Cotton	Phytosanitary Certificate APHIS - PPQ Form 577	Phytosanitary certificate from the exporting country  Declaration that U.S. cotton is free from cotton boll weevil ( <i>Anthonomus grandis</i> ).  The import permit (IP) number and date is required on the Phytosanitary Certificate.	Plant health	Plant Quarantine Wing, Ministry of Agriculture
Wood and wooden materials products used as packing materials	Certificate of solid wood packing materials	There is no specific negotiated attestation or certificate format  Certificate stating that wood and wooden materials are disinfected with heat treatment in accordance with the International Sanitary and Phytosanitary Measures-15 (ISPM-15) of the International Plant Protection Convention (IPPC)  The competent authority or the Chamber of Commerce of the exporting country can issue this certificate.	Plant health	Plant Quarantine Wing, Ministry of Agriculture
Almonds, chickpeas, corn, dates, DDGS, pulses, rice, soybeans, soybean meal, timber, forest	Fumigation Certificate  No specific title  See Note - 1	There is no specific negotiated attestation or certificate format.  Fumigation certificate stating the product is fumigated with the	Plant health	Plant Quarantine Wing, Ministry of Agriculture

Products	Title of Certificate	Attestation required on certificate	Purpose	Requesting Ministry
products, wheat, and other products		National Plant Quarantine Authority (NPQA) approved fumigants at recommended dose before the shipment or on board of the shipment.  Attested by the private fumigation company

[Plant Quarantine Rules, 2018](#) (English), Ministry of Agriculture

*Note 1: There is no specific title, negotiated attestation, or format of certificates between the Government of Bangladesh and the United States; therefore, it is recommended that the exporter verifies with their importer the required certificates and attestations.*

### **Purpose of Specific Export Certificates**

Please refer to the column entitled “Purpose” in the matrix in Section I.

## **SECTION II. SPECIFIC ATTESTATIONS REQUIRED ON EXPORT CERTIFICATE**

There are no specific negotiated attestations between the Government of Bangladesh (GoB) and the United States for export certificates.

### **Phytosanitary Certificates:**

**Hybrid seeds:** The seed has been purified with hot water treatment and with approved fungicides.

### **Health Certificates:**

**Poultry and live birds:** Free of Avian Influenza

**Live cattle:** The statement depends on the conditions written in the “No Objection Certificate” (NOC) issued by the Department of Livestock Services. For Holstein Friesian Bulls, the latest NOC requires that the health certificate must confirm that the imported animal is free from all diseases, especially tuberculosis, brucellosis, leptospirosis, bovine viral diarrhea (BVD), aspergillosis, and any kind of abnormalities. The bulls must be free from harmful ectoparasites and endoparasites.

**Bone meal, meat meal, and protein concentrate:** The produced product is not infected with Transmissible Spongiform Encephalopathy (TSE). Product is sourced from Bovine Spongiform Encephalopathy (BSE), Anthrax, and Tuberculosis (TB) free animal.

**Eggs:** Eggs are free from harmful bacteria and eggs are sourced from birds that are free from Avian Influenza.

**Beef, chevon (mutton), chicken meat, and meat of other animals:** The imported product is sourced from animals free from bovine spongiform encephalopathy (BSE) and the sourced poultry birds are free from avian influenza (AI).

**Frozen bovine semen:** The semen is sourced from a country that is free from Bovine Spongiform Encephalopathy (BSE) and other infectious and venereal diseases.

### **Certificate of Analysis (CoA):**

**Animal feed:** The feed is suitable for fish or poultry or animal consumption. The shipment is free from chloramphenicol, nitrofurans, harmful antibiotics, and melamine.

**Fish feed:** The shipment is free of harmful drugs, hormones, and steroids, including chloramphenicol and nitrofurans.

**Meat and bone meal:** The product is free of chloramphenicol and nitrofurans, harmful antibiotics; free of by-products of pigs/hogs/swine; and free of harmful chromium, tannery by-products, and melamine.

**Fish meal prepared from fish and other sources:** The imported product is free of chloramphenicol and nitrofurans, harmful antibiotics, harmful chromium, tannery by-products, and melamine.

## **SECTION III. GOVERNMENT CERTIFICATE LEGAL ENTRY REQUIREMENTS**

Original copies of necessary import documents and certificates are required. The exporter must send all the original documents and certificates either before the arrival of the shipment or at the time of arrival (depending on the type of products). The customs clearing and forwarding (C&F) agent will submit these documents to Customs.

Certificates are valid only for the individual consignment and cannot be applied for multiple shipments. Certificates are valid for an approved period that is written in the import permit issued by the respective government office. For example, import permits of agricultural and plant products are valid for four to five months from the issuing date of the import permit. The No Objection Certificate (NOC)/Import Permit (IP) for animal and fish feed ingredients is valid for one year.

Customs accepts Country of Origin certificates issued by a Chamber of Commerce or another competent authority.

## **SECTION IV. OTHER CERTIFICATION/ACCREDITATION REQUIREMENTS**

### **Radioactivity Certificates**

Bangladesh has stringent requirements for radioactivity certificates. A pre-shipment radioactivity level certificate is mandatory and must be issued by the competent authority designated by the exporting country's government or an accredited laboratory for most animal feed and food products including processed products and dairy products. Please reach out to Post at [agdhaka@usda.gov](mailto:agdhaka@usda.gov) for any questions about this requirement.

The radioactivity test certificate must include information on the level of cesium-137 (Cs-137) found per kilogram and a statement that says the foodstuff is fit for human consumption. The product will also be retested in Bangladesh. Customs will allow the imported food item to be released only after obtaining a certificate that the product's radioactivity level is within the acceptable limit and tested by the Bangladesh Atomic Energy Commission. If the level of radioactivity is found to be above the acceptable limit tested by the Bangladesh Atomic Energy Commission, the goods will not be unloaded, and the exporter or supplier is obliged to take them back at their own expense. The importer shall bear all expenses related to radioactivity limit testing. No radioactivity test is required to import whisky, beer, and other alcoholic beverages, concentrated essences, spices, and medicines.

The maximum acceptable radioactivity limit for milk and dairy products must be 95 Becquerels (Bq) of Cs-137 and other food items is 50 Bq of Cs-137 per kilogram. The level of Cs-137 in an item is considered in the state it reaches the port without being liquefied, concentrated, or processed. The government may periodically revise the highest acceptable radioactivity limit.
