

Required Report: Required - Public Distribution

Date: June 20, 2025

Report Number: JO2025-0008

Report Name: FAIRS Export Certificate Report Annual

Country: Jordan

Post: Amman

Report Category: FAIRS Export Certificate Report

Prepared By: Mohannad Al Shahwan

Approved By: Adam Klein

Report Highlights:

This report is an annual update on the food imports certificates in Jordan. For assistance on trade policy and port issues in Jordan, U.S. exporters are encouraged to contact FAS Amman at AgAmman@usda.gov.

Disclaimer: This report is prepared by the Amman Office of Agricultural Affairs for U.S. exporters of food and agricultural commodities. While every possible care was taken in the preparation of this report, information provided may not be completely accurate either because policies/regulations/directives have changed since its preparation, or because clear and consistent information was not available. It is highly recommended that U.S. exporters verify the full set of import requirements with their foreign customers, who are usually best equipped to research such matters with local authorities, before any products are shipped. FINAL IMPORT APPROVAL OF ANY PRODUCTS IS SUBJECT TO THE IMPORTING COUNTRY'S RULES AND REGULATIONS AS INTERPRETED BY BORDER OFFICIALS AT THE TIME OF PRODUCT ENTRY.

EXECUTIVE SUMMARY:

The following report provides U.S. exporters and stakeholders updated information and resources to obtain required export certificates for U.S. agricultural-product exports in accordance with Jordan's import standards and regulations. The competent Jordanian authorities which regulate food and agricultural imports and/or require official U.S. export certificates include the Ministry of Agriculture (MoA), the Ministry of Health, the Jordan Food and Drug Administration (JFDA), the Ministry of Industry, Trade and Supply (MOITS), and the Jordan Standards and Metrology Organization (JSMO).

In 2025, at the time of this report, there are regulatory updates that U.S. exporters should review carefully, including new requirements for food labeling, traceability, and gluten-free claims. We recommend that this report be read in conjunction with the accompanying Jordanian Food and Agricultural Import Regulations and Standards (FAIRS) Report. Additionally, we would like to emphasize that prior to initiating any export activities, it is highly recommended to consult with the relevant authorities to ensure that all phytosanitary and regulatory requirements are fully met. This will help to avoid any delays or non-compliance issues upon arrival.

SECTION I – REQUIRED EXPORT CERTIFICATES

TABLE 1: List of Export Certificates Required by the Government of Jordan

PRODUCT	TITLE OF CERTIFICATE	ATTESTATION REQUIRED ON CERTIFICATE	PURPOSE	REQUESTING MINISTRY
All Products	Certificate of Origin	That the product is of U.S.-origin	Certification of the country origin	MoA and JFDA
All Products	U.S.- Food and Drug Administration (FDA) Certificate to a Foreign Government or Sanitary / Health Certificate	The product is safe for human consumption	Certification of food safety	MoA, JFDA, Jordan Customs Authority
Grains and Oilseeds	Phytosanitary Certificate (USDA - Animal and Plant Health Inspection Service (APHIS))	The product complies with Jordan's phytosanitary import requirements in	Phytosanitary certification	MoA

		accordance with the regulated pest list issued by the MOA		
Grain and Oilseeds	Grains Inspection Certificate (USDA – Federal Grain Inspection Service (FGIS)) (NOTE: This is a Quality/Grading Conformity Certificate)	The product maintains a specified quality/grading conformity	Quality certification, cargo matches terms of reference	MoA
Grains and Oilseeds	Stowage Examination Certificate (USDA – FGIS)	The product maintains a specified quality/grading conformity	Quality certification, free of pests and contaminants	MoA
Meat and Meat Products Poultry and Poultry Products	Export Certificate (USDA-Food Safety and Inspection Service (FSIS) Forms: 9060-5, 9060-S)	The product maintains a specified quality/grading conformity. (NOTE: Processed food products containing bovine meat or poultry meat must comply with meat, poultry, and their respective products' requirements) (*)	Certification of product safety and wholesomeness	MoA
Meat and Meat Products Poultry and Poultry Products	Islamic Slaughter Certificate	The meat is halal and not fed on ruminants.	Certification that the product derives from animals slaughtered according to the Islamic rites	MoA
Fish and Fish Products	Health Inspection Certificate Certificate of Origin (National Oceanic and Atmospheric Administration (NOAA))	Product safety and wholesomeness	Health certification	MoA
Fish and Fish Products	Export Certificate (USDA – FSIS) Form: 9060-5S)	Product safety and wholesomeness	Health certification	MoA
Dairy Products	Sanitary Certificate (USDA – Agricultural Marketing Service (AMS))	Product safety and wholesomeness (NOTE: Dairy product facilities require JFDA registration)	Health certification	JFDA and Jordan Customs Authority
Fruits and	Phytosanitary Certificate	The product complies	Phytosanitary	MoA

Vegetables	(USDA – APHIS)	with Jordan’s phytosanitary import requirements in accordance with the regulated pest list issued by the MoA	certification	
Planting Seeds	Phytosanitary Certificate (USDA – APHIS)	(NOTE: MoA authorization is required for the import of seeds for planting)	Phytosanitary certification	MoA

Source: FAS Amman. NOTE: (*) Any processed products containing meat or poultry must meet the same requirements listed under Meat, Poultry, and Products. For additional requirements of meat, poultry, and products, see the [FSIS Export Library](#).

Purpose of Specific Export Certificates: Table 1, above, indicates the specific purposes of certifications currently required by Jordan. MoA regulates unprocessed agricultural products, including the import of veterinary drugs and animal vaccines, pesticides, meat and meat products, poultry and poultry products, animal feeds, and seedlings. JSMO is responsible for the development of standards and ensuring conformity with existing product standards. JSMO delegates product testing responsibilities for food and agricultural products to the JFDA. However, the former continues to retain responsibility for the development of standards (including for food) and ensuring conformity with standards. Any consignment not meeting the official standard is subject to rejection; if so, it will require re-export or destruction at the importer’s expense.

Jordan maintains the Automated System for Customs Data (ASYCUDA) as the primary computerized customs declaration system for Jordan Customs and the Aqaba Special economic Zone Authority which inspects inbound food and agricultural product shipments. This platform simplifies customs clearance procedures. MOA, JFDA, and the Jordan Customs Authority form the border committee that inspects inbound food and agricultural product shipments.

SECTION II – SPECIFIC ATTESTATIONS REQUIRED ON EXPORT CERTIFICATES

Export Certificate: [Export certificates](#) will vary according to the product. The certificate must indicate that the product is produced under a recognized process, ensuring it’s free from public health hazards. The certificate should also indicate that the product is sold for human consumption in the country of origin without restrictions (see, e.g., <https://www.fda.gov/food/exporting-food-products-united-states/food-export-certificates>). If questions arise regarding a certificate or attestation needed, exporters should contact FAS/Amman or the Jordanian importing firm prior to shipping. Please note that U.S. state certification is likely not enough to meet Jordan’s requirements -- an attestation from a federal agency is most likely required to ensure product acceptance.

Certificate of Origin: A certificate of origin is required by MOA and JFDA. The certificate of origin must indicate the manufacturing location for the product being imported. State and/or local authorities, including local chambers of commerce in the same jurisdiction as the manufacturing facility, may issue the document. Should the product be packed/processed in the exporting country (i.e., the United States)

but originate in another, the product's certificate of origin must indicate the initial production area information.

Meat and Meat Products, Poultry and Poultry Products: Exporters of animal products must work closely with their Jordanian importers, as well as check the U.S. Department of Agriculture (USDA) – [the U.S. Department of Agriculture \(USDA\) – FSIS Export Library](#) frequently for the latest updates – these requirements are subject to change and are strictly scrutinized by customs authorities.

A Certificate of Wholesomeness (FSIS 9060-5) must accompany each shipment. Additionally, for shipments of fresh/frozen poultry the following statements must be typed in the “Remarks” section of FSIS Form 9060-S):

“The poultry originates from a county which is free of OIE Listed poultry diseases.”

"The poultry and poultry products were produced in accordance to the FSIS National Residue Program."

Slaughterhouse Credentialing:

For U.S. producers seeking to export meat products to Jordan, their slaughterhouses must have the following credentials:

- Slaughterhouse license certificate from the U.S. federal government,
- Registration code,
- Quality assurance certificate [ISO 22000](#) or HACCP,
- Halal Slaughter Observance certificate, from any Islamic Committees in that specific state.

Islamic Slaughter Certification:

Halal certification is required for export to Jordan. Halal certificates are issued by competent religious organizations in the country of origin, certifying that the shipment of beef, mutton, poultry, and their derivatives have been slaughtered according to Islamic rites and *sharia* laws. Certifying statements should note that all adequate precautions were taken to prevent contamination with non-halal products, and accordingly, the product is suitable for consumption by Muslims in any part of the world.

All federally inspected establishments are eligible to export to Jordan. If products are to be labeled “HALAL,” the plant must be able to accommodate Islamic requirements. The following is presented as information for the exporter. NOTE: The USDA's Food Safety and Inspection Service is not responsible for certifying that products intended for export to Muslim countries meet appropriate requirements for religious slaughter.

For U.S. producers seeking to export meat products to Jordan, they must meet the following certificate requirements:

- All meat and any product of animal origin for export to Jordan must be accompanied by a halal certificate, except for pork and pork products (which can never be halal);
- A halal certificate may be issued by an Islamic association/institution in the state where the slaughtering took place or by any nationally recognized Islamic association/institution;

- The halal certificate should be issued and signed by the approved and licensed Islamic center only, and each consignment should be accompanied by a halal certificate showing the date of slaughtering;
- The halal sign logo should be on the original label from the producing establishment in the country of origin for mass packaging (industrial use) and for each individual retail package. Any added label will not be acceptable.

SECTION III – GOVERNMENT CERTIFICATE LEGAL ENTRY REQUIREMENTS

General Requirements: All importers must apply with the Ministry of Industry, Trade, and Supply for an importer card. Further information is available at the [Jordan Trade Portal](#). [Jordan's Customs Law](#) (1998) [Article 31 and amendments](#) establish that all customs declarations must include the following (note: the Jordan Customs Authority reserves the right to request additional documentation):

- A maritime or airway bill of lading;
- A commercial invoice indicating the value, weight, and freight and insurance charges (Note: all invoices require Jordanian diplomatic/consular approval. In the absence of Jordanian diplomatic/consular approval, Jordan's Customs Director is empowered to accept the country of export's chamber of commerce certification.);
- Commercial invoices are required to describe the product in Arabic;
- A notarized certificate of origin issued by the competent authority in the export country;
- A value declaration form for shipments exceeding Jordan Dinar (JOD) 2,000 (currently JOD 1.00 = ~\$1.41).

Import Licenses: U.S. exporters for certain commodities seeking to ship to Jordan must also submit documentation to obtain pre-import clearance and a non-automatic import license. These products include fruits, vegetables, live animals, chilled meat (beef), poultry, fish, cheese, eggs, sugar, crops and animal feed additives, and wheat. Powdered milk used in industrial applications, as well as any food product making special dietary claims (i.e., infant formula, nutritional supplements, etc.) must obtain an import license. The Jordanian importer is responsible for obtaining the license from the appropriate Ministry.

The Ministries of Agriculture (MoA), Industry, Trade and Supply (MOITS), and Health (MOH) all issue import licenses. MOA is responsible for issuing pre-import clearances for live animals,¹ for fresh/chilled/frozen beef and beef products, as well as for embalmed wild animals, frozen animal semen, and milk products. MOITS oversees the issuing of pre-import clearances for barley, rice, wheat, flour, sugar, and corn. MOH issues pre-import clearances for medications and antibiotics, food supplements, as well as for potassium bromide, food dyes, ice cream, and baby food -- including infant formula.

The clearance, once obtained, acts as an import license. Import licenses normally have a validity of three months, unless otherwise indicated. For trans-shipments, the import license is valid for two months. Import licenses for chilled meat are normally valid for only one month. NOTE: It is permissible to file an appeal for rejected shipments.

¹ See https://www.aphis.usda.gov/aphis/ourfocus/animalhealth/export/international-standard-setting-activities-oie/sa_by_country/sa_jct_animal_jordan

Jordan does not require the original import license at the time of product entry. It accepts photocopies or faxes for perishable items (e.g., beef and fruit consignments). Jordan's Customs Authority releases shipments, under bond, pending submission of original documentation. Multiple consignments are permitted using the same import license until its expiration date or quantity is filled.

Registration Requirements: A few specific products require registration prior to import to Jordan. Most notably, seeds for planting require prior approval. Import requests must be submitted to the Plant Production Directorate, specifying the product type, quantity, and origin. Requests are then reviewed by the Plant Protection and Phytosanitary Directorate based on commodity-specific phytosanitary risks. Import permits are issued only after both directorates confirm that all regulatory conditions have been met.

Exporters of dairy products are required to register their facilities with JFDA prior to shipment. This registration is a simple verification of the exporting firm's hazard analysis and critical control points (HACCP) certification. It requires that the Jordanian importer provide a copy of the exporter's HACCP certificate with a completed application to the JFDA.

In 2017, MoA implemented the requirement that slaughterhouses be registered with the corresponding national authority prior to export to Jordan. In the case of the United States, this is the U.S. Department of Agriculture. The registration is only required once per facility, though it is unclear how long the registration remains valid.

Product Bans: Jordan occasionally bans imports of specific products due to sanitary or phytosanitary concerns. Importers and exporters alike should verify the most recent list of prohibited products prior to shipment. Beginning in January 2017, Jordan banned the use of partially hydrogenated oils (PHOs) in processed dairy products. Processed cheeses, or other products that replace milk fat with any other fat, must not use partially hydrogenated oils. Exporters are encouraged to mark clearly the oil used on any products that could potentially contain PHOs. New to market dairy products should expect an increased level of scrutiny by Jordanian customs officials.

The color tartrazine (E102) is no longer permissible in pickled preparations. This regulation is in line with the European Union (EU) and Codex *Alimentarius* (Codex) standards, Category 4.2.2 and 4.2.2.3, respectively.

SECTION IV – OTHER CERTIFICATION/ACCREDITATION REQUIREMENTS FOR MARKET ENTRY

Customs Law No. 114 (2004): Jordanian and foreign trading companies must obtain an importer card from the Ministry of Industry, Trade, and Supply for customs clearance purposes. Foreign companies not domiciled in Jordan are exempt from this requirement. Bonded goods, temporary imports, and imports entering under the provisions of [Jordan's Investment Promotion Law](#) do not require import licenses. Banks and other non-trading entities such as hospitals, hotels, and Jordanian ministries must obtain a more limited MOITS importer card that authorizes the import of goods specific to the entity's activities.

Jordan launched its [Customs Integrated Tariff System \(CITS\)](#) in August 2005. The system allows importers to access import requirements, as well as evaluate tariff and trade agreement information.

TABLE 2: Jordan List of Other Certifications/Accreditation Requirements

PRODUCT	DOCUMENTATION	REQUIREMENTS
All Products	Commercial Invoice	Must include country of origin, applicable HS codes, number of units, price per unit, and total value for customs valuation. Must include weights, freight, and insurance charges. Must be endorsed by the Jordanian Embassy in the country of origin.
All Products	Bill of Lading	
All Products	Value Declaration	Required for shipments more than JOD 2,000.
Bulk Vegetable Oils	Certificate of Holds Inspection	Indicates that the vessel is clean and prepared to haul edible oils.
Bulk Vegetable Oils	Declaration of Tank Metal	Indicates the type of metal used to line the tank.
Bulk Vegetable Oils	Declaration of Tank Coating	Indicates the type of paint or lining used.
Vegetable Oils	Cargo List	List of materials transported onboard the vessel on the three preceding voyages.
Meat and Meat Products Poultry and Poultry Products	Import License	MOA import license is required prior to shipment.
Fish and Fish Products	Import license	MOA import license is required prior to shipment.
Dairy Products	Registration	First time importers of dairy products must register dairy product supplier facilities with JFDA.
Powdered Milk (For industrial use)	Import License	MOA import license is required prior to shipment.
Fruits and Vegetables	Import License	MOA import license is required prior to shipment.
Products Making Special Claims	Registration	Prior registration with the JFDA is required.
Products making Special Claims	Import License	MOA import license is required prior to shipment.
Planting Seeds	Registration	Prior registration with the JFDA is required.

Source: FAS Amman Research

U.S. Radiation Monitoring: Jordan does not require an attestation of radioactivity for imported agricultural products.

TABLE 3: Other Export Requirements

Category	Requirement / Detail	References / Standards
Labeling Requirements	- Labels must be in Arabic or have an Arabic adhesive label- Statement of ingredients in order of preponderance not required - Must include:• Product name• Manufacturer’s name and address• Net weight• Fortifying matter (e.g., vitamins/minerals)• Lot number and “use before” or “best by” date• Country of origin• Storage conditions	JSMO standards
Nutritional Labeling	Mandatory for:• Infant formula• Dietary foods• Products with nutritional/health claimsMust include:• Nutritional facts panel• Ingredient list in descending order• Fortifying substances• All elements required by JS 9:2025	JS 1473:2022
Shelf-Life Declaration	- Time between production and expiry dates- "Best before" is final expiry date; sales prohibited after this- Date formats:• ≤3 months: DD/MM/YYYY• >3 months: MM/YYYY- Phrases allowed: "Use by", "Best before", "Expiry date"- Exemptions: fresh produce, wine, sugar, salt, cereals, spices, chewing gum, baked goods (<24h)	JS 288:2023
Genetically Engineered (GE) Ingredients	- Products must state "Genetically Modified"- GE-derived ingredients must be listed- No outright GE import bans, but U.S. GE-labeled products may face selective enforcement or delays	JFDA / JSMO guidelines
Packaging and Container Regulations	- Must comply with JS 9:2025, JS 1473:2022, JS 288:2023- Arabic labeling required (printed or adhesive)- Nutritional labeling for infant formula, dietary, or health claim products- Shelf life must comply with JS 288:2023- Size restrictions:• Poultry: max 2.5 kg per retail pack• Honey: max 2 kg per retail unit- Bulk exceptions allowed with JFDA-licensed repacking	JS 9:2025, JS 1473:2022, JS 288:2023
Food Additive Regulations	- Regulated by JSMO and JFDA- Approved additives align with Codex Alimentarius (Codex Standard 192) and JS 94:2017- EU standards applied if Codex silent- E102 (tartrazine) prohibited in pickled items	Codex Alimentarius, JS 94:2017
Pesticides and Contaminants	- Oversight by Ministry of Agriculture (MoA) Plant Protection Directorate (PPD) and JFDA- National standards:• JS 1925:2019 (plant-origin MRLs)• JS 1955:2019 (veterinary drug limits)- Lab testing uses CIPAC, AOAC, and EU methods- JENFSIS system manages traceability and contamination tracking	JS 1925:2019, JS 1955:2019, JENFSIS

Specific packaging, labeling, and shipping requirements exist for meat, poultry, and their products. Jordan’s labeling requirements do not include Recommended Daily Intake (RDIs) levels. Nevertheless, nutritional labeling is mandatory for certain food categories (e.g., infant formula and food for dietary use). The “best before” standard replaced “shelf life” labeling.

Shelf-Life Declaration: JSMO will interpret “best before” as being the product’s expiry date; product sales are not permissible beyond that date. Jordan will scrutinize product labels at border crossing points. Current legislation holds the importer accountable for a product’s content as specified on the label. Jordanian officials will reject shipments due to labeling ambiguities and/or printing errors.

Inspection and Testing: All food and agricultural imports are subject to inspection and testing to ensure that they are fit for human consumption. Jordan tests nearly all prepared and mixed food items at the border. Products failing to meet the corresponding standard, or found unfit for human consumption, may not be distributed and are subject to destruction.

Jordan has implemented amended standards for *salmonella* in meat and poultry products. Products found to contain pathogenic strains of *salmonella* are subject to rejection and destruction. New standards for contamination in fish have also been implemented. The standards outline the maximum limits of infestation and foreign materials allowed to be present in fish.

APPENDIX I – EXPORT CERTIFICATE EXAMPLES

FGIS Export Grain Inspection Certificate

FORM FGIS-909 (7-90) (Replaces Form FGIS-909 (12-89) which may be used)		UNITED STATES DEPARTMENT OF AGRICULTURE FEDERAL GRAIN INSPECTION SERVICE U.S. GRAIN STANDARDS ACT OFFICIAL EXPORT GRAIN INSPECTION CERTIFICATE	COPY NOT NEGOTIABLE US- 03819
<u>Portland, Oregon</u> (ISSUED AT)		<u>April 4, 19XX</u> (DATE OF SERVICE)	
I certify that I am licensed or authorized under the United States Grain Standards Act (7 U.S.C. 71 et seq.), to inspect the kind of grain covered by this certificate.

LOCATION Terminal 1 Elevator		IDENTIFICATION OF CARRIER M/V OCEAN VOYAGER	
GRADE AND KIND (In accordance with the Official United States Standards for Grain) U.S. No. 2 or better Hard Red Winter wheat, Dockage 0.7% Test weight per bushel 62.5 lbs., Moisture 9.5%, Heat-damaged kernels 0.0%, Damaged kernels (total) 0.0%, Foreign material 0.6%, Shrunken and broken kernels 1.4%, Defects (total) 2.0%, Contrasting classes 0.3%, Wheat of other classes 0.6%			
STOWAGE Holds Nos. 1, 3, and 6.			
REMARKS Protein 12.0%, 12.0% moisture basis.			
APPEAL NO. (If applicable)		APPLICANT Maritime International	
		NAME AND SIGNATURE John Lingo 	
<small> This certificate is issued under the authority of the United States Grain Standards Act, as amended (7 U.S.C. 71 et seq.), and the regulations thereunder (CFR 900.0 et seq.). It is issued to show the kind, class, grade, quality, condition, or quantity of grain or the condition of a carrier or container for the storage or transportation of grain, or other facts relating to grain as determined by official personnel. The statements on the certificate are considered true at the time and place the inspection or the weighing service was performed. The certificate shall not be considered representative of the lot if the grain is transhipped or is otherwise transferred from the identified carrier or container or if grain or other material is added to or removed from the total lot. If this certificate is not canceled by a superseding certificate, it is receivable by all officers and all courts of the United States as prima facie evidence of the truth of the facts stated therein. This certificate does not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act, or other Federal law. WARNING: Any person who shall knowingly falsely make, issue, alter, forge, or counterfeit this certificate, or participate in any such actions, or otherwise violate provisions in the U.S. Grain Standards Act, the U.S. Warehouse Act, or related Federal laws, is subject to criminal, civil, and administrative penalties. The conduct of all services and the licensing of (inspecting/grading/sampling) personnel under the regulations governing such services shall be accomplished without discrimination as to race, color, religion, sex, national origin, age, or handicap. </small>			

FGIS Stowage Examination Certificate

FORM FGIS-915 (1-91)		UNITED STATES DEPARTMENT OF AGRICULTURE FEDERAL GRAIN INSPECTION SERVICE	COPY NOT NEGOTIABLE
Previous edition of 1-89 may be used.		OFFICIAL STOWAGE EXAMINATION CERTIFICATE	US 22399
ISSUED AT Portland, Oregon		DATE OF SERVICE 4/2/XX	
I certify that on the above date the following identified service was performed with the following results:			
<input checked="" type="checkbox"/> ORIGINAL INSPECTION	<input type="checkbox"/> REINSPECTION	<input type="checkbox"/> APPEAL INSPECTION	<input checked="" type="checkbox"/> USGSA <input type="checkbox"/> AMA:

ATTESTATION	
The product(s) described above and the manufacturing/processing facility where it is produced are subject to the jurisdiction of the Food and Drug Administration under the Federal Food, Drug, and Cosmetic Act. It is certified that the above product(s) may be marketed in, and legally exported from, the United States of America at this time. The manufacturing/processing facility in which the product(s) is produced is subject to periodic inspections. The last such inspection showed that the facility, at that time, appeared to be in substantial compliance with U.S. requirements for the product(s) listed above.
