

**Required Report:** Required - Public Distribution

Date: January 05, 2024 Report Number: TW2023-0055

# Report Name: FAIRS Export Certificate Report Annual

Country: Taiwan

Post: Taipei

Report Category: FAIRS Export Certificate Report

**Prepared By:** AIT Taipei (APHIS, ATO, and OAA)

Approved By: Erik Syngle

# **Report Highlights:**

This report lists major export certificates required by the Taiwan government to export food and agricultural products to Taiwan. For more information on import requirements, see the Taiwan Food and Agricultural Import Regulations and Standards Report.

# **Executive Summary:**

This report was prepared by the American Institute in Taiwan's Office of Agricultural Affairs in Taipei, Taiwan for U.S. exporters of food and agricultural products. This report gives an overview of Taiwan's certificate requirements for food and agricultural products. While this report strives to be as comprehensive as possible, regulations and requirements can frequently change. U.S. exporters are therefore encouraged to work closely with their Taiwan importers to ensure they are aware of and complying with all current Taiwan regulations and requirements.

Taiwan requires official U.S. government-issued export certificates for many products including meat, poultry, eggs, dairy, fresh fruit, and vegetables, as well as seafood, livestock feed, and organic products, among others. In particular, beef products require special certification under an export verification program. Original certificates should accompany the product at the time of entry for all government-issued certificates.

# Final import approval of any product is subject to rules and regulations as interpreted by Taiwan border officials at the time of product entry.

.....

Product	Title of Certificate	Attestation Required on Certificate	Purpose	Requesting Ministry
Live animals	APHIS Export Health Certificate	<ul> <li>Please refer to Taiwan's quarantine requirements for each live animal species.</li> <li>Also refer to <u>APHIS website</u> for information concerning live animal exports.</li> </ul>	Animal health	Animal and Plant Health Inspection Agency (APHIA)
Eligible meat and processed meat products	<ol> <li>FSIS form 9285-1</li> <li>FSIS form 9060-5</li> <li>FSIS Letterhead Certificate</li> </ol>	Please refer to FSIS <u>Export</u> <u>Library for Taiwan</u> for detailed list of required attestations.	Animal health and food safety	APHIA, Taiwan Food and Drug Administration (TFDA)

	for TFDA		

<sup>a</sup> For detailed information please refer to <u>AMS organic certification-Taiwan</u>.

<sup>b</sup> All phytosanitary certificates shall be issued by the competent quarantine authorities in the United States and signed by an official inspector of the competent quarantine authorities of the United States. Taiwan only accepts a SHIPPER'S ORIGINAL phytosanitary certificate with either a digital signature or a wet signature on regular paper. SHIPPER'S ORIGINAL format only appears on the first printout, which Taiwan recognizes and accepts as the original certificate. It is the exporter's responsibility to send out this original document to Taiwan importers as soon as possible to clear shipments at port of entry. A PDF scanned copy of a "SHIPPER'S ORIGIAL" document or "Certified Copy" of a phytosanitary certificate will not be accepted.

# Section II: Purpose of Specific Export Certificates

(See "purpose" column above.)

#### Section III: Specific Attestations Required on Export Certificates

(See matrix above for attestations required.)

#### Section IV: Government Certificate Legal Entry Requirements

All original certificates are required to accompany the corresponding products at the port of entry, unless otherwise specified by the regulations. Taiwan authorities generally only accept certificates issued by the exporting country's competent government authority. Private industry issued certificates are not accepted. Any revision on the affidavit or text on the certificates must be either signed by an eligible endorsing official or reissued with a certificate including the new affidavit or new text as replacement.

.....

# Section V: Other Certification/Accreditation Requirements

Apart from export certificates, products imported into Taiwan must also meet several other requirements. Details of these requirements are contained in the FAIRS narrative report updated each year by this office. The most recent update is dated December 2023, in conjunction with this report. The report can be downloaded on the FAS website.
