Food and Agricultural Import Regulations and Standards - Certification

FAIRS Export Certificate Report

Approved By:

Lisa Ahramjian, Agricultural Attaché

Prepared By:

Courtland S. Grant, Agricultural Specialist

Report Highlights:

This report describes the major export certificates required by the Government of Jamaica for imports of food and agricultural products. No major changes in export certificate requirements occurred in 2017.

This report was prepared by the USDA Foreign Agriculture Service's Office of Agriculture Affairs in Kingston, Jamaica for U.S. exporters of domestic food and agricultural products. While every possible care was taken in the preparation of this report, information provided may not be completely accurate because policies may have changed since its preparation, or clear and consistent information about these policies was not available. It is highly recommended that U.S. exporters verify the full set of import requirements with their foreign customers, who are normally best equipped to research such matters with local authorities, before any goods are shipped. FINAL IMPORT APPROVAL OF ANY PRODUCT IS SUBJECT TO THE IMPORTING COUNTRY'S RULES AND REGULATIONS AS INTERPRETED BY BORDER OFFICIALS AT THE TIME OF PRODUCT ENTRY.

Section I: List of All Export Certificates Required By Government (Matrix)

Product (s)	Title of Certificate	Attestation Required on Certificate	Purpose	Requesting Ministry
All Foods	Certificate of Free Sale	The products exported are produced and marketed in the United States in general conformity with U.S. requirements.	Food Safety	Ministry of Health – The Standards and Regulation Division
Meats <ul style="list-style-type: none"> • Beef • Mutton • Lamb • Goat 	<p>Meat Inspection Certificate (FSIS Form 9060-5 Certificate of Wholesomeness)</p> <p>Letterhead Certificate (FSIS Form 2630-9) for Beef and Beef Products.</p>	<p>The meat or meat food product have been inspected by a certified veterinarian, both ante-mortem and post-mortem, and is wholesome and fit for human consumption. Remarks on the FSIS Form 9060-5: "The United States is free from foot and mouth disease."</p> <p>For Beef (BSE-related) only, the product is free from specified risk materials of animals aged 30 months of age or older.</p>	<p>Food Safety and Animal Health Protection</p>	<p>Ministry of Health – The Standards and Regulation Division</p> <p>Ministry of Agriculture – Veterinary Services Division</p>

Product (s)	Title of Certificate	Attestation Required on Certificate	Purpose	Requesting Ministry
Poultry and Poultry Products	Poultry Inspection Certificate (FSIS 9060-5 Certificate of Wholesomeness).	The poultry product has been inspected by a certified veterinarian, both ante-mortem and post-mortem, and is wholesome and fit for human consumption. Remarks on the FSIS Form 9060-5: "Product originated from farms that were not under quarantine and are located 10 miles away from any affected farms or flocks."	Food Safety and Animal Health Protection	Ministry of Health – The Standards and Regulation Division Ministry of Agriculture – Veterinary Services Division
Dairy Products	Health/Sanitary Certificate (AMS)	Products are fit for human consumption	Food Safety and Animal Health Protection	Ministry of Health – The Standards and Regulation Division Ministry of Agriculture – Veterinary Services Division

Product (s)	Title of Certificate	Attestation Required on Certificate	Purpose	Requesting Ministry
Products with Minor Dairy or Egg Components	Health/Sanitary Certificate (APHIS VS form 16-4)	Products are fit for human consumption	Food Safety and Animal Health Protection	Ministry of Health – The Standards and Regulation Division Ministry of Agriculture – Veterinary Services Division
Food Preparations Containing Animal Products and Less than 2% Meat Ingredients for Human Consumption	Health/Sanitary Certificate (APHIS VS form 16-4 and VS Form 16-4A)	Certification that rinderpest, foot-and-mouth disease, classical swine fever, swine vesicular disease, African swine fever, and contagious bovine pleuropneumonia do not exist in the United States of America.	Food Safety and Animal Health Protection	Ministry of Health – The Standards and Regulation Division Ministry of Agriculture – Veterinary Services Division

Product (s)	Title of Certificate	Attestation Required on Certificate	Purpose	Requesting Ministry
Table (Shell) Eggs, processed egg products such as frozen egg patties	Grading and Health Certificates (AMS Grading Certificate – Form PY-210S and AMS Health Certificate – “disease free certification statements for other countries”)	Products are fit for human consumption	Food Safety and Animal Health Protection	Ministry of Health – The Standards and Regulation Division Ministry of Agriculture – Veterinary Services Division
Processed Eggs such as pasteurized liquid eggs	Certificate of Wholesome (FSIS Form 9060-5EP) FSIS Letterhead Certificate	Products are fit for human consumption	Food Safety	Ministry of Health – The Standards and Regulation Division Ministry of Agriculture – Veterinary Services Division

Product (s)	Title of Certificate	Attestation Required on Certificate	Purpose	Requesting Ministry
Fruits, Vegetables, Plants and Plant Products	Phytosanitary Certificate	The products have been inspected and are free of harmful pests and plant diseases, and comply with Jamaica's phytosanitary regulations.	Food Safety and Plant Protection	Ministry of Health – The Standards and Regulation Division. Ministry of Agriculture – Plant Quarantine Division
Coconut Derivatives, oil producing Seeds, Edible Oils	Import Permit from Government of Jamaica (GoJ) Coconut Industry Board	The products exported are produced and marketed in the United States in general conformity with U.S. requirements.	Food Safety	Ministry of Health – The Standards and Regulation Division. Ministry of Agriculture - Coconut Industry Board

Product (s)	Title of Certificate	Attestation Required on Certificate	Purpose	Requesting Ministry
Fish and Crustaceans	Export Certificate (Country of origin and analysis of contaminants/heavy metals)	The fish products meets all standards specified by GOJ and must be accompanied by the origin country export health certificate.	Food Safety and fishery protection	Ministry of Health – The Standards and Regulation Division Ministry of Agriculture – Veterinary Services Division
Sugar <ul style="list-style-type: none"> Refined sugar Raw sugar 	License from GoJ Trade Board	The products exported are produced and marketed in the United States in general conformity with U.S. requirements.	Food Safety	Ministry of Health – The Standards and Regulation Division. Ministry of Industry- Jamaica Trade Board

Product (s)	Title of Certificate	Attestation Required on Certificate	Purpose	Requesting Ministry
Pet Foods	Health/Sanitary Certificate (APHIS VS form 16-4 with additional declarations)	The United States meets the requirements of the World Organization for Animal Health (OIE) to be considered free from HPAI, Newcastle disease, swine vesicular disease, African and classical swine fever, and foot-and-mouth disease. Ingredients used in the preparation of the pet food were free from specified risk materials.	Animal Health	Ministry of Agriculture – Veterinary Services Division

Section II: Purpose of Specific Export Certificate (s)

- Certificate of Free Sale: The Jamaican Ministry of Health requires this certificate for all food products imported into Jamaica for the purpose of food safety.
- Health Certificate/Sanitary Certificate: The Ministry of Health requires this certificate for food safety, food quality and food processing conditions. The Ministry of Agriculture, Veterinary Services Division also requires this certificate for animal health protection purposes.
- Meat/Poultry Inspection Certificates (Certificate of Wholesomeness): The Ministry of Health and Ministry of Agriculture – Veterinary Services Division require these certificates for food safety, food quality and animal health protection purposes.
- Phytosanitary Certificate: This certificate is required by the Ministry of Health for the purpose of food safety and the Ministry of Agriculture – Plant Quarantine Division for domestic plant protection purposes.
- Fish and Crustaceans Export Certificate: The Ministry of Health for food safety and the Ministry of Agriculture – Veterinary Services Division for fishery protection.

Section III: Specific Attestation Required On Export Certificate

- Certificate of Free Sale: This certificate should attest that the particular products exported to Jamaica are produced and marketed in the United States in general conformity with U.S. requirements.
- Health Certificate/Sanitary Certificate: This certificate should declare that the facilities are operated under sanitary conditions (under supervision/monitoring of the regulatory agency) and animal/seafood/other products destined for human consumption are free from diseases and conformed to standards negotiated.

- Meat/Poultry Inspection Certificate: This certificate is issued by USDA/FSIS – Form 9060-5. For beef and beef products the following statements must be included in the “Remarks” section of FSIS Form 9060-5:
 1. *The beef/beef products covered by the Veterinary Health Certificate were derived from cattle slaughtered in the United States.*
 2. *The beef, beef products/by-products specified were derived from cattle which received ante-mortem and post-mortem veterinary inspection at the time of slaughter in plants certified for export of such products from the United States. The products must not be adulterated or misbranded as defined by regulations governing meat inspection of the United States Department of Agriculture (USDA).*
 3. *The beef and beef products (bone-in or boneless) were derived from cattle that were slaughtered after March 12, 2004 in accordance with USDA/FSIS regulations.*
 4. *The beef and beef products were not derived from cattle in which air-injection stunning devices were used during slaughtering.*
 5. *The beef and beef products (bone-in or boneless) were not derived from and do not contain any of the following Specified Risk Materials: brain, skull, eyes, trigeminal ganglia, spinal cord, vertebral column (excluding the vertebrae of the tail, the transverse processes of thoracic and lumbar vertebrae and the wings of the sacrum) and the dorsal root ganglia, from animals over 30 months of age at the time of slaughter and the tonsils and intestines from pylorus to anus, or all animals regardless of age.*
 6. *The beef and beef products (bone-in or boneless) were not produced using the Mechanically Separated Meat or Advanced Recovery Meat methods.*
 7. *The cattle from which the beef/beef products were derived have not been in contact with or transported through a port in any country considered to be affected with Foot-and-Mouth Disease (FMD).*
 8. *The beef/beef products/by-products were not derived from cattle that were fed with meat meal, bone meal, meat and bone meal or greaves of ruminant origin.*
 9. *The beef/beef products were produced in accordance with the U.S. National Residue and Analytic Program for residues (antibiotics, hormones, growth promoters, anabolic steroids, additives, etc.) in meat, poultry and egg products. Acronized meat (meat containing antibiotics during processing) is not allowed entry into Jamaica.*
 10. *The beef/beef products have been processed, stored and transported in a manner to preclude contact with meat/animal products that do not comply with the conditions contained in the certificate.*

11. The beef/beef products were prepared, packaged and handled under hygienic and sanitary conditions and are fit for human consumption.

For Poultry and Poultry Products the following statement should be typed under “Remarks” of FSIS Form 9060-5: *Product originated from farms that are not under quarantine and are located 10 miles away from any affected farms or flocks.* There are processing/slaughtering date restriction for poultry and poultry products.

- Export Certificate for imported dairy products for re-export to Jamaica: This certificate should declare that the product was legally imported into the United States from “name of country” under export certificate “reference the export certificate of the country of origin”.
- Health Certificate for Pet Foods: To export pet foods and treats to Jamaica the following certification statements should be provided in the Additional Declarations section of the Export Certificate for Animal Products (VS form 16-4). A notarized affidavit from the manufacturer is required to support these statements on the export certificate issued by APHIS Veterinary Services.

This office has on file a notarized affidavit from [company name] verifying the accuracy of the statements below:

- 1. The animal feed originates from a manufacturing plant approved by the regulatory authority of the exporting country.*
 - 2. Pet food products have been manufactured in accordance with a U.S. system of laws and regulations designed to produce a wholesome product. The product is freely sold in the United States as pet food.*
 - 3. Canned (hermetically sealed products) were treated to F_0 of 3.0 or more to comply with low acid canned food regulations. Dry, semi-moist, and dehydrated products were sufficiently heat processed to assure destruction of pathogens of concern. Liquid products have undergone pasteurization.*
 - 4. Ingredients used in the preparation of the pet food were free from specified risk materials (For pet foods containing ruminant ingredients).*
- Phytosanitary Certificate: This should certify that the shipment of plant and plant products have been inspected and is free of harmful pests and plant diseases, and complies with Jamaica’s phytosanitary regulations. Furthermore, the certificate must declare from which U.S. state the plant products originate. While the Jamaican authorities have no specific declaration requirements on the Phytosanitary Certificate, the following sample attestation can be used as a guideline:
The products have been inspected and/or tested according to appropriate official procedures and are considered to be free from pests and diseases and conform to the current phytosanitary requirements of Jamaica.

Note: The importation of soft, fleshy fruits and vegetables are prohibited from all areas where fruit flies (i.e. Mexican and Mediterranean) are known to occur unless approved treatments can be effectively performed. Furthermore, the importation of plants and rooted cuttings are limited to soil-free plants and plant parts.

- **Certificate of Analysis:** This certificate should provide a complete chemical analysis and microbiological analysis of the product.
- **Aflatoxin Certificate:** This certificate should attest that an accredited laboratory has tested the peanut/corn products and confirm that they do not exceed proscribed regulations.
- **Residues Certificate (heavy metals, toxins, contaminants):** This certificate should declare that the fish product meets or exceeds all standards specified by Jamaica.
- **Certificate of Origin:** The certificate must state the country of origin of the product and/or raw materials.

Section IV: Government Certificate Legal Entry Requirements:

- **Certificate of Free Sale:** The GoJ requests that a Federal/State Health Authority issue this certificate. Jamaica does not accept a supplier's or manufacturer's export declaration as proof of compliance. The certificate of free sale is valid for one year and can be applied to multiple shipments of the same product.
- **Health Certificate/Sanitary Certificate:** The GoJ requests that this certificate be issued by a U.S. Federal Agency. Each shipment must be accompanied by the original certificate and the original import permit (exporter's copy).
- **Meat/Poultry Inspection Certificate (Certificate of Wholesomeness):** The GoJ requires that this certificate be issued by a U.S. Federal Agency. Each shipment must be accompanied by the original certificate and the original import permit (exporter's copy).
- **Phytosanitary Certificate:** GoJ requires that this certificate is issued by a Federal Agency. The original certificate along with import permit must accompany the product at the time of entry into Jamaica.
- **Certificate of Analysis:** The government accepts a manufacturer's/supplier's export declaration as proof of compliance. The certificate is valid for the designated shipment only, and the original certificate must accompany the product at the time of entry.
- **Aflatoxin Certificate:** The government accepts a manufacturer's/supplier's export declarations as proof of compliance. The certificate is valid for the designated shipment only, and the original certificate must accompany the product at the time of entry.
- **Residue Certificate:** The government accepts a manufacturer's/supplier's export declaration as proof of compliance. The certificate is valid for the designated shipment only, and the original certificate must accompany the product at the time of entry.

- **Certificate of Origin:** This certificate must be issued by an official at the federal or state level. The certificate is valid for the designated shipment only, and the original certificate must accompany the product at the time of entry.

Note: All Import Permits issued are valid for a period of three (3) months with the exception of poultry and poultry products which are valid for a period of two (2) months. Import permits are required for each product per shipment and become invalid if the expiry date is passed or when the permit is used to import a part or whole of the quantity of the product stated on the permit.

Section V: Other Certification/Accreditation Requirements

Jamaica's regulatory agencies conduct limited laboratory testing on imported food products. However, the Food Storage and Prevention of Infestation Division (FSPID) of MICAFA conducts careful examination of the physical and sanitary condition of products entering Jamaica. For additional requirements and information, please see Post's 2017 FAIRS Narrative Report (JM1707), 2017 Exporter Guide (JM1708), and 2016 HRI Report at the following web portal:

FDA Certificate of Free Sale

CERTIFICATE TO FOREIGN GOVERNMENT

In order to allow the importation of United States products into foreign countries, the U.S. Food and Drug Administration (FDA) certifies the following information concerning the product(s) to be exported listed below:

NAME OF MANUFACTURER OR DISTRIBUTER, ADDRESS

NAME OF PRODUCT(S) (GENERIC NAME IF APPLICABLE)

COUNTRY OF DESTINATION (OPTIONAL)

PREMARKET APPROVAL IDENTIFIER (IF APPLICABLE, I.E., NDA, NADA, PMA

NUMBER, 510(k) NUMBER, LICENSE NUMBER)

The product(s) described above and the plant(s) where it is produced are subject to the jurisdiction of the FDA under the Federal Food, Drug, and Cosmetic Act.

It is certified that the above listed product(s) may be marketed in, and legally exported from, the United States of America at this time. The manufacturing plant(s) in which the product(s) is produced is subject to periodic inspections. The last such inspection showed that the plant(s), at that time, appeared to be in substantial compliance with current good manufacturing practice requirements for the product(s) listed above.
