Food and Agricultural Import Regulations and Standards - Certification

FAIRS Export Certificate Report

Approved By:

Richard A. Battaglia, Director

Prepared By:

Omar González, International Trade Specialist

Report Highlights:

"Section(s) Updated: Section II, Appendices I & III

This report outlines Trinidad and Tobago's (TT) certification requirements and includes an Export Certificate Matrix as well as examples of select Export Certificates. To avoid costly customs clearance delays, it is recommended that U.S. suppliers have their TT buyer verify compliance with all certification requirements prior to shipping new-to-market products. A list of the relevant TT authorities is provided in this report.

NOTE: This report was prepared by the Caribbean Basin Agricultural Trade Office (CBATO) of the Foreign Agricultural Service (FAS)/U.S. Department of Agriculture (USDA) in Miami, Florida for U.S. exporters of domestic food and agricultural products. While every possible care was taken in the preparation of this report, information provided may not be completely accurate either because policies have changed since its preparation, or because clear and consistent information about these policies was not available. It is highly recommended that U.S. exporters verify the full set of import requirements with their foreign customers, who are normally best equipped to research such matters with local authorities, before any goods are shipped. FINAL IMPORT APPROVAL OF ANY PRODUCT IS SUBJECT TO THE IMPORTING COUNTRY’S RULES AND REGULATIONS AS INTERPRETED BY BORDER OFFICIALS AT THE TIME OF PRODUCT ENTRY.

Section I. List of All Export Certificates Required By Government (Matrix)

Product(s)	Title of Certificate	Attestation Required on Certificate	Purpose	Requesting Ministry
All Foods	Certificate of Free Sale	The products exported are produced and marketed in the United States in general conformity with U.S. requirements.	Food Safety	Min. of Health: Chemistry/Food & Drugs Division (CFDD)
Animal Products/ Fish Products	Health Certificate / Sanitary Certificate	The animal/marine products destined for food consumption are free from disease and conform to negotiated standards concerning animal/marine health. *See Section III for specific language required.	Food Safety/Food Quality Animal Health Protection	Min. of Health: CFDD Ministry of Agriculture: Animal Health Sub-Division (Vet Services)
Meat Products/ Poultry	Meat/Poultry Inspection Certificate (Certificate of Wholesomeness)	The meat/poultry products have been inspected by a certified veterinarian, both ante-mortem and postmortem, and are wholesome and fit for human consumption. Additional statements must be made for canned and packaged meat products. *See Section III for specific language required.	Food Safety/Food Quality Animal Health Protection	Min. of Health: CFDD Ministry of Agriculture: Animal Health Sub-Division (Vet Services)

Canned and Packaged Meats	Cooking/ Processing Certificate	The canned meat/poultry products were manufactured in accordance with USDA meat/poultry processing regulations. Must specify the temp./minutes of the sterilizing process and the sterilizing value	Food Safety	Min. of Health: CFDD Ministry of Agriculture: Animal Health Sub-Division (Vet Services)
---------------------------	---------------------------------	--	-------------	--

Product(s)	Title of Certificate	Attestation Required on Certificate	Purpose	Requesting Ministry
Unprocessed Plant Products (Fresh fruits and vegetables, rice, flour, peas, beans, plants & lumber)	Phytosanitary Certificate	The plant products have been inspected and are free of harmful pests and plant diseases, and comply with TT's phytosanitary regulations. Must declare from which US State the plant products originated. *See Section III for sample language.	Food Safety Plant Protection	Min. of Health: CFDD Min. of Agriculture: Plant Quarantine Service
All Foods	Certificate of Analysis	Must give a complete chemical analysis of the product. Must identify the preservatives, food additives, and color additives of the product.	Food Safety/ Food Quality/ Heavy Metals/ Inorganic, Organic Standards	Min. of Health: CFDD
Peanuts/Corn	Aflatoxin Certificate	An accredited laboratory has tested the peanuts/corn products and the products do not exceed prescribed aflatoxin regulations.	Food Safety	Min. of Health: CFDD
Fish	Mercury/Heavy Metals/ Contaminants	The fish product meets or exceeds all purity standards specified by the TT	Food Safety	Min. of Health: CFDD

	/Toxins/ Residues Certificate (Certificate of Analysis)	government.		
Halal/Kosher Meat Products	Halal/Kosher Certificate	The meat product was slaughtered under religious ritual slaughter practices (Halal or Kosher). *See Section III for sample language	Religious Beliefs	Min. of Health: CFDD
Dairy and Dairy Products	Certificate of Origin	Country of origin of raw materials	Food Safety	Min. of Health: CFDD
Other Products	Other Certificates: Organically Grown Foods, Genetically Modified Foods, Irradiated Foods	Specific language may vary depending on the nature of the certificate. U.S. exporters should consult with the Chemistry/Food & Drug Division (see Gov. Agency Regulatory Contacts at the end of this report).	Food Safety	Min. of Health: CFDD

Section II. Purpose of Specific Export Certificate(s)

- Certificate of Free Sale: The Ministry of Health, for the purpose of food safety, requires this certificate for all food products exported to TT.

Note: While the U.S. Food and Drug Administration (FDA)/Department of Health and Human Services (DHSS) often issues Certificates of Free Sale, it is important to note that the 1997 FDA Export Reform and Enhancement Act does not require FDA to issue export certificates for food products. However, since many foreign governments require Certificates of Free Sale, FDA intends to continue to provide this certification service as resources permit.

- Health Certificate/Sanitary Certificate: The Ministry of Health requires this certificate for food safety, food quality, and food processing conditions. Additionally, the Ministry of Agriculture, Land and Fisheries, Animal Health Sub-Division (Veterinary Services) requires this certificate for animal health protection purposes.

Note: USDA's Animal and Plant Health Inspection Service (APHIS) is the principal federal agency responsible for issuing health certificates for animal products (VS Form 16-4, March 2010). No APHIS Veterinary Services health certificate should be necessary for processed foods and food ingredients containing animal products as well as shelf stable food preparations. Such products should be accompanied by a Free Sale Certificate issued by a food

safety agency in the State of manufacture under the authority of the competent authority or by the United States FDA.

Dairy products for human consumption produced in the United States are to be certified by the USDA Agricultural Marketing Service (AMS), Dairy Programs (Sanitary Certificate for Exports).

Imported dairy products for human consumption (such as ice cream, milk, yogurt, cheese, milk powder, etc.) that have legally entered the United States from countries approved by the TT Ministry of Agriculture, Land and Fisheries*, that are free for sale in the United States, and that have not been processed in the United States, may be certified for re-exported by APHIS to Trinidad and Tobago. The APHIS Veterinary Services may issue a certificate (VS 16-4) with statements detailed under option one or option two for such dairy products.

Option one: The exporter provides a government-issued veterinary certificate from the originating country giving appropriate statements about the origin of imported materials or how materials were processed in the originating country.

1. The products were legally imported into the United States from _____ (name of country) under export certificate _____ (reference the export certificate of the country of origin).
2. The product was not processed in the United States.

Option two: The exporter provides a copy of the corresponding “entry summary” document issued by the pertinent U.S. customs agency. In addition, a notarized affidavit to support the statements on the VS Form 16-4 issued by APHIS Veterinary Services must be provided. This office has on-file a notarized affidavit from [insert importer or import broker, manufacturer company name] verifying the accuracy of the statements below:

1. The products were legally imported into the United States.
2. The product was not processed in the United States.

*Prior to shipment, the importer should verify the eligibility of dairy products from third countries with the Ministry of Agriculture, Land and Fisheries.

Prepared or manufactured food products containing eggs or egg products are certified exclusively by AMS using Form LPS-234 (12-2016). A sample LPS-234 certificate is provided in Appendix I). AMS certifies a wide range of foods, including cooked omelets, frozen egg patties, crepes, hard boiled eggs, mayonnaise, and foods containing egg extracts.

Processed egg products (including liquid, frozen, or dried eggs, with or without added ingredients) are to be certified by the USDA Food Safety and Inspection Service (FSIS) using Form 9060-5EP (Note: FSIS Form PY200 has been discontinued).

The National Marine Fisheries Service (NMFS) of the National Oceanic and Atmospheric Administration (NOAA) is the primary federal agency responsible for issuing health certificates for harvested/produced seafood products.

- Meat/Poultry Inspection Certificate (Certificate of Wholesomeness): The Ministry of Health, as well as the Ministry of Agriculture, Land and Fisheries require that this certificate be issued by a U.S. Federal Agency for food quality purposes.

Note: USDA's FSIS issues Certificates of Wholesomeness guaranteeing that the meat/poultry products have been inspected by a FSIS Veterinarian; both ante mortem and postmortem, and are wholesome and fit for consumption. For fresh/frozen meat and meat products and poultry and poultry products an FSIS Form 9060-5, Meat and Poultry Certificate of Wholesomeness should be used. For casings from beef, pork and sheep slaughtered in the United States, FSIS Form 9060-7 (08/26/2011), Animal Casings Export Certificate for Countries Requiring Ante-Mortem, Post Mortem and Fit For Human Food Statements should be used. For beef, pork and sheep casings legally imported into the United States, FSIS Form 9060-18 (08/25/2011), Animal Casings Export Certificate for Countries Requiring Ante-Mortem, Post Mortem, and Sound and Clean Statements should be used.

- Cooking and Processing Certificate: The Ministry of Health and the Ministry of Agriculture, Land and Fisheries, for the purpose of food safety, require this certificate for all canned and packaged meat products exported to TT.
- Phytosanitary Certificate: This certificate is required by the Ministry of Health for the purpose of food safety, as well by the Ministry of Agriculture, Land & Fisheries/Plant Quarantine Unit for domestic plant protection purposes.

Note: USDA's APHIS is the principal federal agency responsible for conducting inspections and issuing Phytosanitary Certificates.

- Certificate of Analysis: The Ministry of Health requires this certificate for the purposes of food safety, food quality, heavy metals, toxins, contaminants, residues and inorganic/organic standards.

Note: USDA's AMS issues Certificates of Analysis (for nuts and other exported products only) on a user-fee basis.

- Aflatoxin Certificate: The Ministry of Health, for food safety reasons, requires this certificate.

Note: USDA's AMS, or other USDA accredited labs, issue Aflatoxin Certificates on a user-fee basis.

- Mercury/Heavy Metals/Toxins/Contaminants/Residues Certificate: The Ministry of Health, for food safety reasons, requires this official certificate for all U.S. fish products exported to TT.
- Halal/Kosher Certificate: This certificate is required of products labeled as being either Halal or Kosher. The Ministry of Health requires this certificate for religious belief purposes.
- Certificate of Origin: The Ministry of Health requires this certificate for food safety reasons. The Ministry of Health has specific concerns regarding melamine in raw materials.

Section III. Specific Attestations Required on Export Certificate(s)

- Certificate of Free Sale: This certificate should attest that the particular products exported to TT are produced and marketed in the United States in general conformity with U.S. requirements.
- Health Certificate/Sanitary Certificate: This certificate should declare that the facilities are operated under sanitary conditions (under supervision/monitoring of the regulatory agency) and animal/marine/other products destined for food consumption are free from disease and conform to negotiated standards concerning animal/marine health. This certificate should include the following attestation for animal products:

This is to certify that rinderpest, foot-and-mouth disease, hog cholera, swine vesicular disease, African swine fever, bovine fever, and contagious bovine pleuropneumonia do not exist in the United States of America.

For the export of pet foods and pet treats to TT, the following certification statements should be provided in the Additional Declarations section of the Export Certificate for Animal Products (VS Form 16-4) and continuation page VS form 16-4A as needed. A notarized affidavit from the manufacturer is required to support these statements on the export certificate issued by APHIS Veterinary Services.

This office has on file a notarized affidavit from [company name] verifying the accuracy of the statements below:

1. The products may be freely sold in the United States as pet food.
2. Dry, semi-moist, and dehydrated products were sufficiently heat processed to assure destruction of pathogens of concern.
3. Canned (hermetically sealed products) were treated to an F0 of 3.0 or more.
4. Precautions were taken after processing to avoid contamination of the products.
5. All products have been packed using new containers and packaging materials.

For the export of feathers intended for ornamental use to TT, the following certification statements should be provided in the Additional Declarations section of the Export Certificate for Animal Products (VS Form 16-4) and continuation page VS form 16-4A as needed. A notarized affidavit from the manufacturer is required to support these statements on the export certificate issued by APHIS Veterinary Services.

This office has on file a notarized affidavit from [company name] verifying the accuracy of the statements below.

U.S. origin product

1. The United States or region of origin meets the conditions of the World Animal Health Organization (OIE) to be considered free of highly pathogenic avian influenza and Newcastle disease as defined by

the OIE.

2. The product originates in the United States.
3. The product was heat processed. (Provide processing parameters.)

Imported product

1. The product was imported legally in accord with the regulations of the United States pertaining to highly pathogenic avian influenza and Newcastle disease.
2. The product was not processed in the United States.

For the export of semen extended with poultry eggs and that is not otherwise certified by APHIS Veterinary Services, an Export Certificate for Animal Products (VS form 16-4) is required. An example is canine semen in an egg-based extender.

The following certification statement should be provided in the Additional Declarations section of the Export Certificate for Animal Products (VS Form 16-4) and continuation page VS form 16-4A as needed.

The United States or region of origin (State: ___) meets the criteria of the Terrestrial Animal Health Code of the World Organization for Animal Health to be considered free of highly pathogenic avian influenza and Newcastle disease.

- **Meat/Poultry Inspection Certificate (Certificate of Wholesomeness):** This certificate should attest that the meat/poultry products have been inspected by a certified veterinarian, both ante-mortem and postmortem, and are wholesome and fit for consumption. Specific certificate forms are to be used for different products. For fresh/frozen meat and meat products and poultry and poultry products, a FSIS Form 9060-5, Meat and Poultry Certificate of Wholesomeness is to be used. For casings from beef, pork and sheep slaughtered in the United States, a FSIS Form 9060-7 (08/26/2011), Animal Casings Export Certificate for Countries Requiring Ante-Mortem, Post Mortem and Fit For Human Food Statements is to be used. For beef, pork and sheep casings legally imported into the United States, a FSIS Form 9060-18 (08/25/2011), Animal Casings Export Certificate for Countries Requiring Ante-Mortem, Post Mortem, and Sound and Clean Statements is to be used.
- **Cooking and Processing Certificate:** This certificate should declare that the canned meat/poultry products were manufactured in accordance with USDA meat/poultry processing regulations. The certificate should specify the temperature/minutes of the sterilizing process and the sterilizing value.
- **Phytosanitary Certificate:** This certificate should certify that the shipment of plant products has been inspected and is free of harmful pests and plant diseases, and complies with TT's phytosanitary regulations. Furthermore, the Phytosanitary Certificate must declare from which U.S. State the plant products originated.

While the TT Government has not specified a specific declaration required on the Phytosanitary Certificate, the following sample attestation can be used as a guideline:

The products have been inspected and/or tested according to appropriate official procedures and are considered to be free from pests and diseases and conform to the current phytosanitary requirements of TT.

Note: The importation of soft, fleshy fruits and vegetables are prohibited from all areas where fruit flies (i.e. Mexican and Mediterranean) are known to occur unless approved treatments can be effectively performed. Additionally, the importation of planting material, namely plants and rooted cuttings, should be limited to soil-free plants and plant parts.

- **Certificate of Analysis:** This certificate should give a complete chemical analysis and microbiological analysis of the product. This certificate should also identify the preservatives, food additives, and color additives of the product.
- **Aflatoxin Certificate:** This certificate should attest that an accredited laboratory has tested the peanuts/corn products and the products do not exceed proscribed aflatoxin regulations.
- **Mercury/Heavy Metals/Contaminants/Toxins/Residues Certificate:** This certificate should declare that the fish product meets or exceeds all purity standards specified by the TT government.
- **Halal/Kosher Certificate:** This certificate should ensure that the meat product was slaughtered under religious ritual slaughter practices (Halal or Kosher).

While the TT Government has not specified a specific declaration required on Halal/Kosher Certificates, the following sample attestation can be used as a guideline for poultry products:

The poultry products covered by this certificate are derived from birds that received (Kosher/Halal) slaughter as based upon documentation provided by religious authorities or by (Kosher/Halal) label declaration.

The following sample attestation can be used as a guideline for beef products:

The beef products covered by this certificate are derived from cattle that received (Kosher/Halal) slaughter as based upon documentation provided by religious authorities or by (Kosher/Halal) label declaration.

- **Certificate of Origin:** The certificate must state the country of origin of the raw materials.

Section IV. Government Export Certificate's Legal Entry Requirements

- **Certificate of Free Sale:** The TT government requests that a Federal Health Authority issue this certificate. TT does not accept a Supplier's or Manufacturer's Export Declaration as proof of compliance. The Certificate of Free Sale is valid for one year and can be applied to multiple shipments of the same product. Exporters are required to update this certificate with the TT Chemistry/Food and Drug Division on an annual basis.
- **Health Certificate/Sanitary Certificate:** The TT Government requests that this certificate be issued by a U.S. Federal Agency. The TT Government does not accept U.S. State issued Health Certificates. The Health Certificate is valid for the length of time indicated on the certificate, otherwise valid for the

indicated shipment, and it must accompany the products at the time of entry.

- **Meat/Poultry Inspection Certificate (Certificate of Wholesomeness):** The TT Government requires that this certificate be issued by a U.S. Federal Agency. The Government will not accept U.S. State issued Meat/Poultry Inspection Certificates. Customs Officials will accept the Certificate of Meat/Poultry for the indicated shipment only, and an original certificate must accompany the products at the time of entry and be presented in order to obtain an import permit.
- **Cooking and Processing Certificate:** The TT Government requests that this certificate be issued by a U.S. Federal Agency. The Government does not accept a Manufacturer/ Supplier's Export Declaration as proof of compliance. The certificate is only valid for the indicated shipment, and the original certificate must accompany the products at time of entry.
- **Phytosanitary Certificate:** The TT Government requires that this certificate be issued by a U.S. Federal Agency. The TT Government will not accept a U.S. State issued Phytosanitary Certificate or a Manufacturer/Supplier's Export Declaration as proof of compliance. Customs Officials will accept the certificate for the indicated shipment only, and the original certificate must accompany the plant products at the time of entry.
- **Certificate of Analysis:** The TT Government accepts a Manufacturer/Supplier's Export Declaration as proof of compliance. The certificate is valid for the indicated shipment only, and the original certificate must accompany the products at the time of entry. It is important to note, however, that for products considered "high risk" (such as meat and dairy); shipments may be detained by CFDD for sampling and subsequent microbiological testing. This situation is reportedly temporary until the CFDD provides further guidance on their policy going forward.
- **Aflatoxin Certificate:** The TT Government accepts a Manufacturer/Supplier's Export Declaration as proof of compliance. Customs Officials will accept the Aflatoxin Certificate for the indicated shipment only, and an original certificate must accompany the peanut/corn products at the time of entry.
- **Mercury/Heavy Metals/Contaminants/Toxins/Residues Certificate:** The TT Government accepts a Manufacturer/Supplier's Export Declaration as proof of compliance. The certificate is valid for the indicated shipment only, and the original certificate must accompany the fish products at the time of entry.
- **Halal/Kosher Certificate:** This certificate may be issued by a private sector religious authority. An original certificate must accompany the product at the time of entry.
- **Certificate of Origin:** This certificate must be issued by an official body at the Federal or local level. The certificate is only valid for the indicated shipment, and the original certificate must accompany the products at the time of entry.

Section V. Other Certification/Accreditation Requirements to Ensure Market Entry

The Food and Drug Act of 1960, the Pesticide & Toxic Chemical Act of 1979, the Animal Disease Importation Act of 1954, and the Plant Protection Act of 1975, are the comprehensive set of laws that govern the importation of food and agricultural products into TT. In general, TT follows internationally accepted food standards and guidelines (i.e. those developed by the Codex Alimentarius), and may refer to U.S., Canadian, and European standards as well.

Exporters are advised that importers will likely require paperwork in advance of the arrival of any animal product in order to request an import permit from the Animal Health Subdivision of the Ministry of Agriculture, Land and Fisheries. Import permits are issued on a shipment by shipment basis and only after the documents have been presented by the importer or importer's agent. If an import permit is issued, it will detail the conditions under which the product will be allowed to enter into TT (e.g. certification or any treatment that may be required). Therefore, U.S. exporters should work very closely with their TT importers to make sure that they fully comply with the specified conditions of entry. For more information on the subject, see the 2016 Food and Agricultural Import Regulations and Standards Narrative Report for TT.

Finished leather and other finished animal products intended for commercial use may be exported to TT if shipped with documents that demonstrate processing to mitigate animal disease. A veterinary certificate is not required for finished leather products, such as leather bags, shoes and belts.

Commercial shipments of drums should be accompanied by documents demonstrating processing including the use of sufficient heat or chemical treatment to mitigate disease risk. In the event that the drums originate from countries other than the United States, the government of TT reserves the right to require evidence of legal importation into the United States and may also require evidence of mitigation sufficiently efficacious so as to mitigate risk from anthrax.

TO WHOM IT MAY CONCERN

We have reviewed the correspondence of:

Manufacturing Facility
123 Main St
Washington, DC 20002

Concerning the exportation of Example Product 1, and Example Product 2

These products are regulated by the Food and Drug Administration (FDA) pursuant to the requirements of the Federal Food, Drug and Cosmetic Act (FD&C Act) and the Fair Packaging and Labeling Act (FPLA).

The FDA does not have the statutory authority to approve or reject any particular food or cosmetic product or any manufacturer or distributor of such products. It is the responsibility of the manufacturer and/or distributor to market a safe and properly labeled product (i.e., one that is neither adulterated nor misbranded within the meaning of the FD&C Act and/or the FPLA, as applicable).

We can state that the product referenced above is under the jurisdiction of the FDA, which has primary responsibility for the administration, and enforcement of the FD&C Act. While we have not reviewed the labeling or examined the specific product that is to be offered for export, we can state that such product may be freely marketed in the United States provided it complies with all the applicable laws and regulations we enforce. The manufacturing plant, in which the product referenced above was produced, is subject to periodic inspections. The last such inspection showed that the plant, at that time, appeared to be in compliance with the general requirements of the FD&C Act and regulations promulgated thereunder.

For your information, a food may be exported if it meets the specifications of section 801(e) of the FD&C Act [21 U.S.C. 381(e)]. In accordance with the provisions of this section, a food intended for export shall not be deemed to be adulterated or misbranded under the FD&C Act if it:

- (a) accords to the specifications of the foreign purchaser,
- (b) is not in conflict with the laws of the country to which it is intended for export,
- (c) is labeled on the outside of the shipping package that it is intended for export, and
- (d) is not sold or offered for sale in domestic commerce.

Very truly yours,

A handwritten signature in black ink, appearing to read "Nega Beru".
