

**Required Report:** Required - Public Distribution

**Date:** February 09,2021

**Report Number:** JO2020-0018

**Report Name:** Food and Agricultural Import Regulations and Standards  
Export Certificate Report

**Country:** Jordan

**Post:** Amman

**Report Category:** FAIRS Export Certificate Report

**Prepared By:** Elizabeth Mellow, Senior Regional Agricultural Attaché and Mohamed Khraishy,  
Agricultural Specialist

**Approved By:** Ali Abdi, Counselor for Agricultural Affairs

**Report Highlights:**

This FAIRS report lists the export certificates required for food and agricultural products shipped to the Hashemite Kingdom of Jordan. An export certificate matrix is included in this report. The requirements listed herein are specific for consignments coming directly from the United States to Jordan or transshipped in a sealed container with invoices stating that Jordan is the final destination.

**Disclaimer:**

This report is prepared by the USDA/ Foreign Agricultural Service, Office of Agricultural Affairs Amman for U.S. exporters of food and agricultural commodities. While every possible care was taken in the preparation of this report, information provided may not be completely accurate either because policies/regulations/directives have changed since its preparation, or because clear and consistent information was not available. Post highly recommends that U.S. exporters verify the full set of import requirements with their foreign customers, who are usually best equipped to research such matters with local authorities, before any products are shipped.

## SECTION I – REQUIRED EXPORT CERTIFICATES

**TABLE 1: List of Export Certificates Required by the Government of Jordan (MATRIX)**

PRODUCT	CERTIFICATE NAME	ATTESTATION	PURPOSE	REQUESTING MINISTRY
<b>All Products</b>	Certificate of Origin	That the product is of U.S.-origin	Certification of the country origin	Ministry of Agriculture Jordan Food and Drug Administration
<b>All Products</b>	FDA Certificate to a Foreign Government or Sanitary/Health Certificate	That the product is safe for human consumption	Certification of food safety	Ministry of Agriculture Jordan Food and Drug Administration Jordan Customs Authority
<b>Grains and Oilseeds</b>	Phytosanitary Certificate (USDA - Animal and Plant Health Inspection Service (APHIS))	That the product complies with Jordan's phytosanitary import requirements in accordance with the regulated pest list issued by the Ministry of Agriculture	Phytosanitary certification	Ministry of Agriculture
<b>Grain and Oilseeds</b>	Grains Inspection Certificate (USDA – Federal Grain Inspection Service (FGIS))  (NOTE: This is a Quality/Grading Conformity Certificate)	That the product maintains a specified quality/grading conformity	Quality certification, cargo matches terms of reference	Ministry of Agriculture
<b>Grains and Oilseeds</b>	Stowage Examination Certificate (USDA – Federal Grain Inspection Service (FGIS))	That the product maintains a specified quality/grading conformity	Quality certification, free of pests and contaminants	Ministry of Agriculture
<b>Meat and Meat Products;  Poultry and Poultry Products</b>	Export Certificate (USDA-Food Safety and Inspection Service (FSIS) Forms: 9060-5, 9060-S)	That the product maintains a specified quality/grading conformity (NOTE: Processed food products containing bovine meat or poultry meat must comply with meat, poultry, and their respective products' requirements) (*)	Certification of product safety and wholesomeness	Ministry of Agriculture
<b>Meat and Meat Products;</b>	Islamic Slaughter Certificate	That the meat is halal	Certification that the product derives from	Ministry of Agriculture

<b>Poultry and Poultry Products</b>			animals slaughtered according to the Islamic rites	
<b>Fish and Fish Products</b>	Health Inspection Certificate  Certificate of Origin (National Oceanic and Atmospheric Administration (NOAA))	Product safety and wholesomeness	Health certification	Ministry of Agriculture
<b>Fish and Fish Products</b>	Export Certificate (USDA – Food Safety and Inspection Service (FSIS) Form: 9060-5S)	Product safety and wholesomeness	Health certification	Ministry of Agriculture
<b>Dairy Products</b>	Sanitary Certificate (USDA – Agricultural Marketing Service (AMS))	Product safety and wholesomeness (NOTE: Dairy product facilities require Jordan Food and Drug Administration registration)	Health certification	Jordan Food and Drug Administration Jordan Customs Authority
<b>Fruits and Vegetables</b>	Phytosanitary Certificate (USDA - Animal and Plant Health Inspection Service (APHIS))	That the product complies with Jordan's phytosanitary import requirements in accordance with the regulated pest list issued by the Ministry of Agriculture	Phytosanitary certification	Ministry of Agriculture
<b>Planting Seeds</b>	Phytosanitary Certificate (USDA - Animal and Plant Health Inspection Service (APHIS))	(NOTE: Ministry of Agriculture authorization is required for the import of seeds for planting)	Phytosanitary certification	Ministry of Agriculture

NOTE: (\*) Any processed products containing meat or poultry must meet the same requirements listed under Meat, Poultry, and Products. For additional requirements of meat, poultry, and products see the FSIS Export Library: <https://www.fsis.usda.gov/wps/portal/fsis/topics/international-affairs/exporting-products/export-library-requirements-by-country/Jordan>.

## SECTION II – PURPOSE OF SPECIFIC EXPORT CERTIFICATES

See Section I, TABLE 1: List of Export Certificates Required by the Government of Jordan (MATRIX) for clarification of the specific purposes of certifications currently required by Jordan.

The Jordan Standards and Metrology Organization (JSMO) is responsible for the development of standards and ensuring conformity with existing product standards. It delegates to the Jordan Food and Drug Administration (JFDA) product testing responsibilities for food and agricultural products. The former continues to retain however responsibility for the development of standards (including for food) and ensuring conformity with standards. The Ministry of Agriculture (MOA) regulates unprocessed agricultural products; including the import of veterinary drugs and animal vaccines, pesticides, meat and meat products, animal feeds, and seedlings.

JSMO responsibilities include the national metrology system; it also grants (voluntary) quality marks and accredits testing and calibration laboratories (see [GAIN–JORDAN No. JO18020 - Jordan Food and Agricultural Import Regulations and Standards \(FAIRS\) Annual Country Report 2018](#)).

Jordan maintains the ASYCUDA computerized customs clearance system. This platform simplifies customs clearance procedures. The [Ministry of Agriculture](#) along with the [Jordan Food and Drug Administration](#) and the [Jordan Customs Authority](#) form the border committee that inspects inbound food and agricultural product shipments.

## SECTION III – SPECIAL ATTESTATIONS REQUIRED ON EXPORT CERTIFICATES

**Export Certificate:** Export certificates will vary according to the product. The certificate must indicate that the product is produced under a recognized process, ensuring its freedom from public health hazards. The certificate should also indicate that the product is sold for human consumption in the country of origin without restrictions. If questions arise regarding a certificate or attestation needed, exporters should contact FAS Amman or the Jordanian importing firm prior to shipping.

**Certificate of Origin:** The certificate of origin is required by the MOA and JFDA. The certificate of origin must indicate the manufacturing location for the product being imported. State and/or local authorities, including local chambers of commerce in the same jurisdiction as the manufacturing facility, may issue the document. Should the product be packed/processed in the exporting country (i.e., the United States) but originate in another, the product's certificate of origin must indicate the initial production area information.

**Meat and Meat Products, Poultry and Poultry Products:** Exporters of animal products must work closely with their Jordanian importers, as well as to check the U.S. Department of

Agriculture (USDA) – [Food Safety and Inspection Service \(FSIS\) Export Library](#) frequently for the latest updates – these requirements are subject to change and are strictly scrutinized by customs authorities.

A Certificate of Wholesomeness (FSIS 9060-5) must accompany each shipment. Additionally, for shipments of fresh/frozen poultry the following statement must be typed in the “Remarks” section of FSIS Form 9060-S):

*“The poultry originates from a county which is free of OIE Listed poultry diseases.”*

*“The poultry and poultry products were produced in accordance to the FSIS National Residue Program.”*

### **Slaughterhouse Credentialing**

- Slaughterhouse license certificate from the U.S. federal government.
- Registration code.
- Quality assurance certificate ISO 22000 or HACCP.
- Halal Slaughter Observance certificate, from any Islamic Committees in that specific state.

Specific packaging, labeling, and shipping requirements exist for meat, poultry, and their products (see [GAIN-JORDAN \(2019-0010\) Food and Agricultural Import Regulations and Standards Country Report – FAIRS Narrative Jordan 2019](#) and the FSIS Export Library).

### **Islamic Slaughter Certification**

Halal certification is required for export to Jordan. Halal certificates are issued by competent religious organizations in the country of origin, certifying that the shipment of meat beef, mutton, poultry, and their derivatives have been slaughtered according to Islamic rites and *sharia* laws. Certifying statements should note that all adequate precautions were taken to prevent contamination with non-halal products, and accordingly, the product is suitable for consumption by Muslims in any part of the world.

All federally inspected establishments are eligible to export to Jordan. If products are to be labeled "HALAL," the plant must be able to accommodate the Islamic requirements. The following is presented as information for the exporter. The USDA’s Food Safety and Inspection Service is not responsible for certifying that products intended for export to Muslim countries meet appropriate requirements for religious slaughter.

### **Halal Slaughter Requirement**

- All meat and any product of animal origin for export to Jordan must be accompanied by a halal certificate, except for pork and pork products (which are not halal).

- A halal certificate may be issued by an Islamic association/institution in the state where the slaughtering took place or by any nationally recognized Islamic association/institution.
- The halal certificate should be issued and signed by the approved and licensed Islamic center only, and each consignment should be accompanied by a halal certificate showing the date of slaughtering.
- The halal sign logo should be on the original label from the producing establishment in the country of origin for mass packaging (industrial use) and for each individual retail package. Any added label will not be acceptable.

## SECTION IV – GOVERNMENT CERTIFICATE LEGAL ENTRY REQUIREMENTS

### General Requirements

[Jordan's Customs Law](#) (1998), [article 31 and amendments](#) establishes that all customs declarations must include the following (note: the Jordan Customs Authority reserves the right to request additional documentation):

- A maritime or airway bill of lading.
- A commercial invoice indicating the value, weight, and freight and insurance charges. All invoices require Jordanian diplomatic/consular approval. In the absence of Jordanian diplomatic/consular approval, Jordan's Customs Director is empowered to accept the country of export's chamber of commerce certification.
- Commercial invoices are required to describe the product in Arabic.
- A notarized certificate of origin issued by the competent authority in the export country. A value declaration form for shipments exceeding Jordan dinar (JOD) 2,000 (Jordanian dinar JOD 1.00 ≈ U.S. dollar 1.41).

**Import Licenses:** Pre-import clearance is required for certain commodities. These products include fruits, vegetables, beef, poultry, fish, and eggs. Powdered milk used in industrial applications, as well as any food product making special dietary claims (i.e., infant formula, nutritional supplements, etc.) must obtain an import license. The Jordanian importer is responsible for obtaining the license from the appropriate ministry.

The Ministries of Agriculture (MOA), Industry, Trade and Supply (MOITS), and Health (MOH) all issue import licenses. The Ministry of Agriculture is responsible for issuing pre-import clearances for live animals, for fresh/chilled/frozen beef and beef products, as well as for embalmed wild animals, frozen animal semen, and milk products. The Ministry of Industry, Trade and Supply oversees the issuing of pre-import clearances for barley, rice, wheat, flour, sugar, and corn. The Ministry of Health issues pre-import clearances for medications and antibiotics, athletic food supplements, as well as for potassium bromide, food dyes, ice cream, and baby food, including infant formula.

The clearance, once obtained, acts as an import license. Import licenses normally have a validity of three months, unless otherwise stated. For trans-shipments, the import license is valid for two months. Import licenses for chilled meat are normally valid for only one month. The appeal of rejected shipments is permissible.

Jordan does not require the original import license at the time of product entry. It accepts photocopies or faxes for perishable items (e.g., beef and fruit consignments). Jordan's Customs Authority releases shipments, under bond, pending submission of original documentation. Multiple consignments are permitted using the same import license until its expiration date or quantity filled.

The Ministry of Agriculture has established an informal quota system in 2019 that caps poultry imports (broilers). However, U.S.-origin is not subject to this policy.

**Registration Requirements:** A few specific products require registration prior to import to Jordan. Most notably, seeds for planting and products making special dietary claims require prior registration. Exporters are encouraged to work closely with Jordanian importers in fulfilling these requirements. Exporters of dairy products are required to register their facilities with the Jordan FDA prior to shipment. This registration is a simple verification of the exporting firm's hazard analysis and critical control points (HACCP) certification. It requires that the Jordanian importer provide a copy of the exporter's HACCP certificate with a completed application to the Jordan Food and Drug Administration.

In 2017 the Ministry of Agriculture implemented the requirement that slaughterhouses to be registered with the corresponding national authority prior to export to Jordan. In the case of the United States, this is the U.S. Department of Agriculture. The registration is only required once per facility, though it is yet unclear for how long the registration remains valid.

Exporters are encouraged to contact the Jordan Ministry of Agriculture or FAS Amman for updates prior to shipment.

**Product Bans:** Jordan occasionally bans imports of specific products due to sanitary or phytosanitary concerns. Importers and exporters alike should verify the most recent list of prohibited products prior to shipment.

Beginning in January 2017, Jordan banned the use of partially hydrogenated oils (PHOs) in processed dairy products. Processed cheeses, or other products that replace milk fat with any other fat, must not use partially hydrogenated oils. Exporters are encouraged to mark clearly the oil used on any products that could potentially contain partially hydrogenated oils. New-to-market dairy products should expect an increased level of scrutiny by Jordanian customs officials.

The color tartrazine (E102) is no longer permissible in pickled preparations. This regulation is in line with the European Union (EU) and Codex *Alimentarius* (Codex) standards, Category 4.2.2 and 4.2.2.3 respectively.

**Labeling Requirements:** The Jordan Standards and Metrology Organization sets labeling requirements, which are straightforward. A statement of ingredients in order of preponderance is not required. All labels must be in Arabic; alternatively, an Arabic language stick-on label is acceptable. The label at minimum must contain:

- Product name.
- The manufacturer's name and address.
- Net weight.
- Fortifying matter (e.g., added vitamins and minerals to powdered milk).
- Lot number and a "use before" or "best by" date.

Jordan's labeling requirements do not include Recommended Daily Intake (RDIs) levels. Nutritional labeling nevertheless is mandatory for certain food categories (e.g., infant formula and food for dietary use). The "best before" standard replaced "shelf life" labeling.

The Jordan Standards and Metrology Organization will interpret "best before" as being the product's expiry date; the sale of no product is permissible beyond that date. Jordan will scrutinize product labels at border crossing points. Current legislation holds the importer accountable for a product's content as specified on the label. Jordanian officials will reject shipments due to labeling ambiguities and printing errors.

**GE Content Labeling:** In early 2020, Jordan's FDA commenced to enforce a new genetic engineering regulation that is more trade friendly. Products labeled as containing GE ingredients are no longer restricted by JFDA as long as those products are marketed in the country of origin.

**Inspection and Testing:** All food and agricultural imports are subject to inspection and testing to ensure that these are fit for human consumption. Jordan tests nearly all prepared and mixed food items at the border. Products failing to meet the corresponding standard, or found unfit for human consumption, may not be distributed and are subject to return to source or destruction at importer's expense.

Jordan has implemented amended standards for *salmonella* in meat and poultry products. Product found to contain pathogenic strains of *salmonella* subject to rejection and destruction at importer's expense.

New standards for contaminants in fish have also been implemented. The standards outline the maximum limits of infestation and foreign materials present in fish.

## SECTION V – OTHER CERTIFICATION/ACCREDITATION REQUIREMENTS TO ENSURE MARKET ENTRY

**Customs Law No. 114 (2004):** Jordanian and foreign trading companies must obtain an importer card from the Ministry of Industry, Trade and Supply for customs clearance purposes. Foreign companies not domiciled in Jordan are exempt from this requirement. Bonded goods, temporary imports, and imports entering under the provisions of [Jordan's Investment Promotion Law](#) do not require import licenses. Banks and other non-trading entities such as hospitals, hotels, and Jordanian ministries must obtain a more limited MOITS importer card that authorizes the import of goods specific to the entity's activities.

Jordan launched its [Customs Integrated Tariff System \(CITS\)](#) in August 2005. The system allows importers to access import requirements, as well as evaluate tariff and trade agreement information.

**TABLE 2: Jordan List of Other Certifications/Accreditation Requirements**

PRODUCT	DOCUMENTATION	REQUIREMENTS
All Products	Commercial Invoice	Must include country of origin, applicable HS codes, number of units, price per unit, and total value for customs valuation. Must include weights and freight and insurance charges. Must be endorsed by Jordanian Embassy in the country of origin.
All Products	Bill of Lading	
All Products	Value Declaration	Required for shipments in excess of JOD 2,000.
Bulk Vegetable Oils	Certificate of Holds Inspection	Indicates that the vessel is clean and prepared to haul edible oils.
Bulk Vegetable Oils	Declaration of Tank Metal	Indicates the type of metal used to line the tank.
Bulk Vegetable Oils	Declaration of Tank Coating	Indicates the type of paint or lining used.
Vegetable Oils	Cargo List	List of materials transported onboard the vessel on the three preceding voyages.
Meat and Meat Products Poultry and Poultry Products	Import License	Ministry of Agriculture import license is required prior to shipment.
Fish and Fish Products	Import license	Ministry of Agriculture import license is required prior to shipment.
Dairy Products	Registration	First time importers of dairy products must register dairy product supplier facilities with Jordan Food and Drug Administration.
Powdered Milk (for industrial use)	Import License	Ministry of Agriculture import license is required prior to shipment.
Fruits and Vegetables	Import License	Ministry of Agriculture import license is required prior to shipment.
Products Making Special Claims	Registration	Prior registration with the Jordan Food and Drug Administration is required.
Products making Special Claims	Import License	Ministry of Agriculture import license is required prior to shipment.
Planting Seeds	Registration	Prior registration with the Jordan Food and Drug Administration is required.

## APPENDIX I – EXPORT CERTIFICATE EXAMPLES

### FGIS Export Grain Inspection Certificate

FORM FGIS-909 (7-90)		UNITED STATES DEPARTMENT OF AGRICULTURE FEDERAL GRAIN INSPECTION SERVICE U.S. GRAIN STANDARDS ACT	COPY NOT NEGOTIABLE
(Replaces Form FGIS-909 (12-89) which may be used)		OFFICIAL EXPORT GRAIN INSPECTION CERTIFICATE	US- 03819
Portland, Oregon (ISSUED AT)		April 4, 19XX (DATE OF SERVICE)	
I certify that I am licensed or authorized under the United States Grain Standards Act (7 U.S.C. 71 et seq.), to inspect the kind of grain covered by this certificate.			
<input checked="checked" type="checkbox"/> ORIGINAL INSPECTION	<input type="checkbox"/> REINSPECTION	<input type="checkbox"/> APPEAL INSPECTION	<input type="checkbox"/> BOARD APPEAL INSPECTION
QUANTITY (This is NOT a Weight Certificate) 32,388,250 Pounds			
LOCATION Terminal 1 Elevator		IDENTIFICATION OF CARRIER M/V OCEAN VOYAGER	
GRADE AND KIND (In accordance with the Official United States Standards for Grain) U.S. No. 2 or better Hard Red Winter wheat, Dockage 0.7% Test weight per bushel 62.5 lbs., Moisture 9.5%, Heat-damaged kernels 0.0%, Damaged kernels (total) 0.0%, Foreign material 0.6%, Shrunken and broken kernels 1.4%, Defects (total) 2.0%, Contrasting classes 0.3%, Wheat of other classes 0.6%			
STOWAGE Holds Nos. 1, 3, and 6.			
REMARKS Protein 12.0%, 12.0% moisture basis.			
APPEAL NO. (If applicable)	APPLICANT Maritime International	NAME AND SIGNATURE John Lingo	
<small>This certificate is issued under the authority of the United States Grain Standards Act, as amended (7 U.S.C. 71 et seq.), and the regulations thereunder (7 CFR 800.0 et seq.). It is issued to show the kind, class, grade, quality, condition, or quantity of grain or the condition of a carrier or container for the storage or transportation of grain, or other facts relating to grain as determined by official personnel. The statements on the certificate are considered true at the time and place the inspection or the weighing service was performed. The certificate shall not be considered representative of the lot if the grain is transhipped or is otherwise transferred from the identified carrier or container or if grain or other material is added to or removed from the total lot. If this certificate is not canceled by a superseding certificate, it is receivable by all officers and all courts of the United States as prima facie evidence of the truth of the facts stated therein. This certificate does not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act, or other Federal law.</small>			
<small><b>WARNING: Any person who shall knowingly falsify, make, issue, alter, forge, or counterfeit this certificate, or participate in any such actions, or otherwise violate provisions in the U.S. Grain Standards Act, the U.S. Warehouse Act, or related Federal laws, is subject to criminal, civil, and administrative penalties.</b></small>			
<small>The conduct of all services and the licensing of (inspecting/grading/sampling) personnel under the regulations governing such services shall be accomplished without discrimination as to race, color, religion, sex, national origin, age, or handicap.</small>			

# FGIS Stowage Examination Certificate

FORM FGIS-915 (1-91)  Previous edition of 1-89 may be used.				UNITED STATES DEPARTMENT OF AGRICULTURE FEDERAL GRAIN INSPECTION SERVICE		COPY NOT NEGOTIABLE US 22399	
OFFICIAL STOWAGE EXAMINATION CERTIFICATE				ISSUED AT Portland, Oregon		DATE OF SERVICE 4/2/XX	
I certify that on the above date the following identified service was performed with the following results:							
<input checked="" type="checkbox"/> ORIGINAL INSPECTION		<input type="checkbox"/> REINSPECTION		<input type="checkbox"/> APPEAL INSPECTION		<input checked="" type="checkbox"/> USGSA	
						<input type="checkbox"/> AMA:	
						TIME COMPLETED 0800 Hours	
IDENTIFICATION OF CARRIER  M/V OCEAN VOYAGER				LOCATION  Portland at anchor			
STOWAGE AREA EXAMINED  Hold Nos. 1, 3, and 6							
RESULTS ('x' one)				<input checked="" type="checkbox"/> Stowage area examined on the above date and found to be substantially clean, dry, free of insect infestation, and suitable to store or carry grain or commodity.			
				<input type="checkbox"/> Stowage area examined on the above date and found not suitable to store or carry grain or commodity (see remarks for reason).			
REMARKS							
APPLICANT  Maritime International, Ltd.				INSPECTOR  Jerry Marsh <i>Jerry Marsh</i>			
<p>This certificate is issued under the authority of the United Grain Standards Act, as amended (7 U.S.C. 71 et seq.), and the regulations thereunder (7 CFR 800.0 et seq.), or the Agricultural Marketing Act of 1946, as amended (7 U.S.C. 1621 et seq.), and regulations thereunder (7 CFR 68.1 et seq.), as appropriate. It is issued to show the condition of a carrier or container for the storage or transportation of grain or commodity. The statements on the certificate are considered true at the time and place the inspection service was performed. If this certificate is not canceled by a superseding certificate, it is receivable by all officers and all courts of the United States as prime facie evidence of the truth of the facts stated therein. This certificate does not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act, or other Federal law.</p> <p><b>WARNING:</b> Any person who shall knowingly falsify, make, issue, alter, forge, or counterfeit this certificate, or participate in any such actions, or otherwise violate provisions in the U.S. Grain Standards Act, the Agricultural Marketing Act of 1946, or related Federal laws, is subject to criminal, civil, and administrative penalties. The conduct of all services and licensing of (inspecting/grading/sampling) personnel under the regulations governing such services shall be accomplished without discrimination as to race, color, religion, sex, national origin, age, or handicap.</p>							

# FGIS Grain Weight Certificate

FGIS-960 (1-86) (Prev. edition may be used)	UNITED STATES DEPARTMENT OF AGRICULTURE FEDERAL GRAIN INSPECTION SERVICE  <b>U.S. GRAIN STANDARDS ACT</b> <b>OFFICIAL GRAIN WEIGHT CERTIFICATE</b>	US- 23642  COPY NOT NEGOTIABLE																																																				
	Portland, Oregon (ISSUED AT)	April 4, 19XX (DATE OF SERVICE)																																																				
Please refer to this certificate by its number, including the lettered prefix, if any, and date.																																																						
I certify that I am licensed or authorized under the United States Grain Standards Act (7 U.S.C. 71 et seq.) to weigh the kind of grain covered by this certificate and that on the above date the following identified grain was weighed under the Act, with the following results:
