

Voluntary Report – Voluntary - Public Distribution

Date: September 04, 2026

Report Number: JA2026-0057

Report Name: The 276th Japan Food Safety Group Outcomes

Country: Japan

Post: Tokyo

Report Category: Sanitary/Phytosanitary/Food Safety

Prepared By: Tomohiro Kurai

Approved By: Craig Elliott

Report Highlights:

The Consumer Affairs Agency (CAA) of Japan has proposed revisions to Japan's maximum residue levels (MRLs) on five agricultural chemicals (Chlorantraniliprole, 1,3-Dichloropropene, Fenazaquin, Thiobencarb, and Tiadinil) for various agricultural commodities. By September 9, 2026, interested U.S. parties should submit their comments to PlantDivision@usda.gov for plant products, FAS-TPGAAAnimalDivision@usda.gov for animal products, and PPTRD@usda.gov for processed products. The CAA will also notify the proposed revisions to the World Trade Organization.

General

On August 19, 2026, the Consumer Affairs Agency (CAA) of Japan proposed regulatory revisions at the 276th Food Safety Group meeting for the following five agricultural chemicals:

Pesticides:

- Chlorantraniliprole
- 1,3-Dichloropropene
- Fenazaquin
- Thiobencarb
- Tiadinil

For details of Japan's proposal, please review the attached document distributed by the CAA, which has also been shared electronically with Tokyo-based embassies.

Interested U.S. parties are encouraged to submit comments for plant-related proposals to PlantDivision@usda.gov, animal-related proposals to FAS-TPGAAAnimalDivision@usda.gov, and proposals for processed products to PPTRD@usda.gov by September 9, 2026. Japan will also notify these revisions to the World Trade Organization (WTO), providing an additional opportunity to submit comments.
