

# THIS REPORT CONTAINS ASSESSMENTS OF COMMODITY AND TRADE ISSUES MADE BY USDA STAFF AND NOT NECESSARILY STATEMENTS OF OFFICIAL U.S. GOVERNMENT POLICY

Voluntary \_ Public

Date: 2/25/2015 GAIN Report Number: UP1502

## Ukraine

Post: Kiev

# **Controls Applied to Imported Food Products**

**Report Categories:** FAIRS Subject Report

Approved By: Jorge A. Sanchez, Agricultural Attaché Prepared By:

Alexander Tarassevych, Agricultural Specialist

## **Report Highlights:**

This report on sanitary, veterinary, phytosanitary, ecological controls and compulsory conformity certification matches the applied controls to specific commodity HS Codes. This table shows potential US exporters what types of control are expected in Ukraine. For detailed explanations of these lists, please refer to FAIRS-Narrative report. This report replaces UP1031 Report submitted September 2010.

The Office of Agricultural Affairs of the USDA/Foreign Agricultural Service in Kyiv, Ukraine prepared this report for U.S. exporters of domestic food and agricultural products. While every possible care was taken in the preparation of this report. Information provided may not be completely accurate either because policies have changed since its preparation, or because clear and consistent information about these policies was not available. It is highly recommended that U.S. exporters verify the full set of import requirements with their foreign customers who are normally best equipped to research such matters and specifics with local authorities before any goods are shipped. FINAL IMPORT APPROVAL OF ANY PRODUCT IS SUBJECT TO THE IMPORTING COUNTRY'S RULES AND REGULATIONS AS INTERPRETED BY BORDER OFFICIALS AT THE TIME OF PRODUCT ENTRY.

### PRODUCT SPECIFIC CONTROL REQUIREMENTS (BY HS CODE NUMBER)

The table is based on the following Legislation:

- 1. Cabinet of Minister's <u>Resolution #1031</u> "On Control Issues of Goods Crossing Customs Borders of Ukraine"\* (Adopted in 2011 with amendments 2011-14).
- 2. State Committee of Ukraine on Technical Regulations and Consumer Policy <u>Order # 28</u> "On Approving the List of Products Subject to Mandatory Certification in Ukraine" (Adopted in 2005 with amendments 2005-12).
- 3. Cabinet of Minister <u>Resolution #436</u> "On Approval of List of Goods that are Restricted when Crossing the *Custom Border of Ukraine*" (Adopted in 2012 with amendment in 2012).

**Attention:** Joint Order of the State Customs Service, State Border Control, Ministry of Health, Ministry of Agricultural Policy, Ministry of Culture and Tourism, Ministry of Environment, Ministry of Transport and Communications with joint number No. 265/211/191/210/14/147/326 adopted on March 27, 2009 was canceled in July 2012)

The numbers in the table indicate the following:

- 0 The product is not subject to state control (including preliminary documentary control);
- 1 The product is subject to state preliminary documentary control;
- 2 The product is subject to the state control conducted by the official of the appropriate competent authority at the border crossing point;
- 3 The product is subject to state control conducted by an official of the appropriate competent authority at the Customs crossing point (the point of entrance in the custom territory of Ukraine).
- + The product is subject to conformity certification. The exporter should contact its trading partner to find out what technical regulations are applicable.

Products market with an "\*" next to HS Code are subject to state control at the Customs border crossing point in a form of preliminary documentary control if the product arrives in hermetic, isothermal, isolated means of transport or containers

#### **Product Specific Control Requirements Matrix**

\*\* With the exception of fish, fishery products, seaweeds, alcohol and tobacco, only products supplied for consumption of children are subject to conformity certification. FAS/Kiev is analyzing certification requirements on compliance with Ukraine's WTO obligations.

**Customs inspection** is mandatory for all products.

**Radiological inspection** must be conducted to verify compliance of all imported agricultural and food products with the maximum allowable levels of radio-nuclides contained in food in Ukraine.

A separate ecological inspection is conducted to verify compliance with the international agreements on trade in endangered species in the case of animal or bird importation and certain types of meat derived from wild animals.
