FAS Mexico announces to our report reading public that, beginning in late February, all public FAS Mexico GAIN reports will include a request for feedback from you, our readers. The mechanism will be via a short online survey, accessed by clicking the link provided in each report. Through these efforts we hope to better understand our users and provide more information that is relevant to you.

The survey mechanism, originally developed by ATO Mexico City, will be managed by Survey Monkey, a popular, free web-based survey service. Beginning with public GAIN reports published by late February, users should see a reference to our request for feedback and a link to do so. This information will be in one of the following formats, depending on which office (the Ag Affairs Office, Mexico City Trade Office, or Monterrey Trade Office) is publishing the report:
