November Update

Approved By:

Prepared By:

Abdul Ghani Wahab

Report Highlights:

No change to PS&D this month. The industry continues to consider the impact of the impending change in the export tax system, set to begin January 1, 2013. Meanwhile, CPO prices have dropped about 100 MYR per ton in the last month, as already record-level stocks continue to grow. Lower than expected November exports contributed to the stock buildup.
