Despite strengthening of the Thai baht to 30.4 baht/U.S. \$1.00 from the previous week's exchange rate of 30.7 baht/U.S. \$1.00, rice export prices declined by 2 percent from the previous week due to a lack of new inquiries and a slowdown in contracted shipments. Exporters reportedly fulfilled large-volume shipments of white rice to Malaysia and African countries. However, exporters still have concerns about the delay of sales of the remaining rice stock tenders for 208,650 metric tons issued on July 25, 2019, as the government has reportedly not yet resolved a contract dispute on rice storage payments in some of the rental warehouses. Traders expect that the government will be able to sell only around half of these remaining rice stocks.

Rice Export Update

Unofficial and preliminary rice exports (excluding fragrant rice) for August 12-18, 2019, totaled 92,595 metric tons, down 13,493 metric tons from the previous week and down 411 metric tons from the four weeks moving average of 93,006 metric tons (Table 2). Rice exports from January 1 – August 18, 2019, totaled 4,032,794 metric tons, down 32 percent from the same period last year.

Note on data: Export figures since March 22, 2002, do not include fragrant rice. In addition, during May 1, 2013 - December 18, 2016, export data did not include 25% - 100% grade white rice exports as the reporting authority was moved from the Thai Board of Trade to the Ministry of Commerce's Office of Commodity Standards, which does not release official export data. FAS/BKK reports only the official export numbers available from the Board of Trade of Thailand. The reader should bear in mind these differences when comparing historical data with current data.
